

**THE STATE COMMITTEE OF THE REPUBLIC
OF UZBEKISTAN ON STATISTICS**

TOTAL INCOME OF POPULATION IN THE REPUBLIC OF UZBEKISTAN

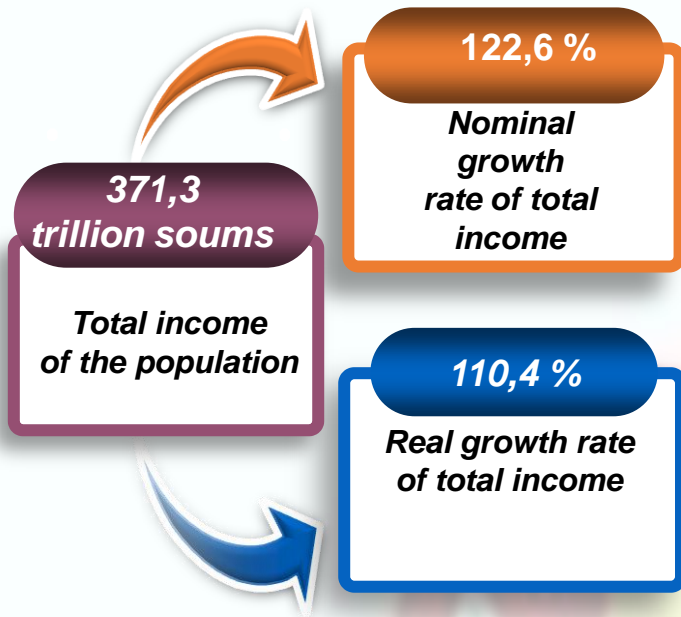

**PRELIMINARY DATA
FOR JANUARY-
SEPTEMBER 2021**

The total income of the population in the Republic of Uzbekistan

The total income of the population in the Republic of Uzbekistan (preliminary data for January-September 2021)

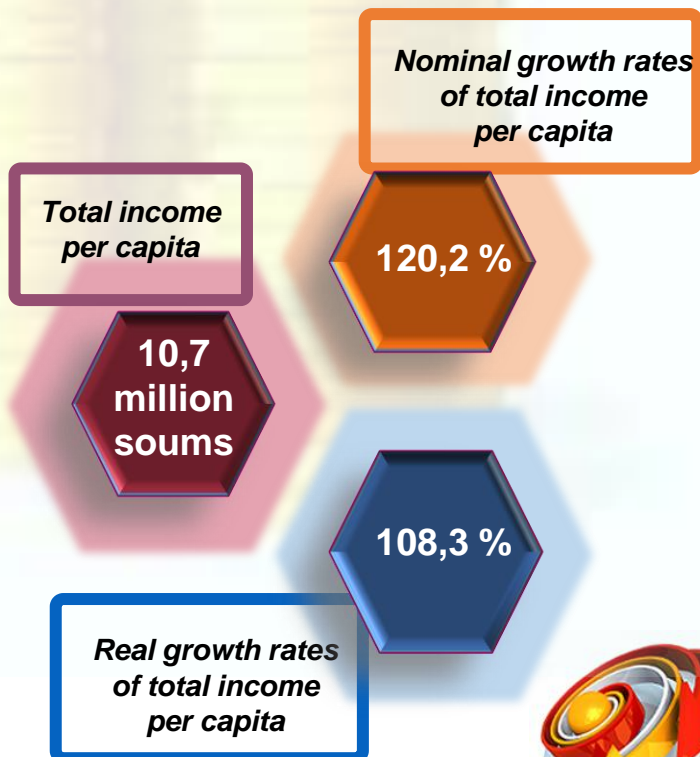

The calculation of the total income of the population is carried out on the basis of international statistical standards of the System of National Accounts, the recommendations of the International Labor Organization, an interdepartmental methodological guide developed and approved by the State Statistics Committee, the Ministry of Economic Development and Poverty Reduction on the basis of the legislation of the Republic of Uzbekistan.

Add Your Title...

According to preliminary data, in January-September 2021, the comprehensive total income of the population reached 371.3 trillion soums.

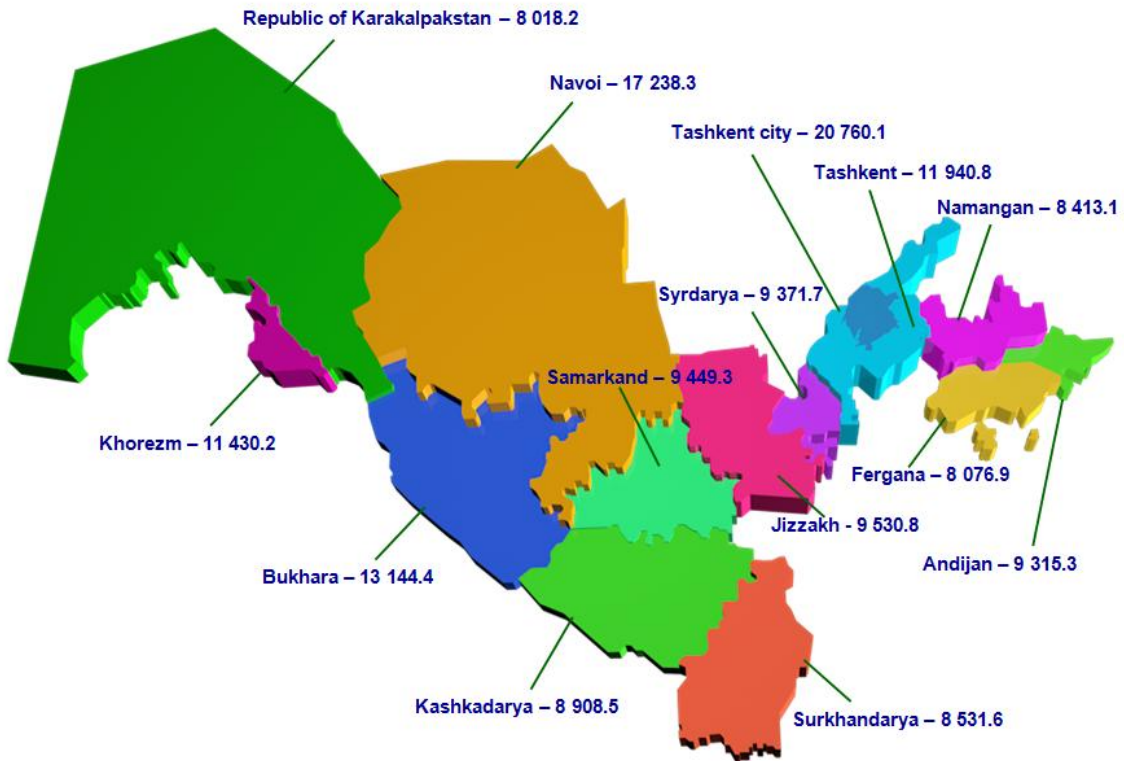

In order to exclude the influence of price factors for calculating the real growth rate of household income, the consumer price index (CPI) is used - one of the important types of inflation indicator. Due to the change in consumer prices, the growth rate of the total income of the population, compared to the same period in 2020, in real terms amounted to 110.4%.
