## Industrial production of the Republic of Uzbekistan for January 2018

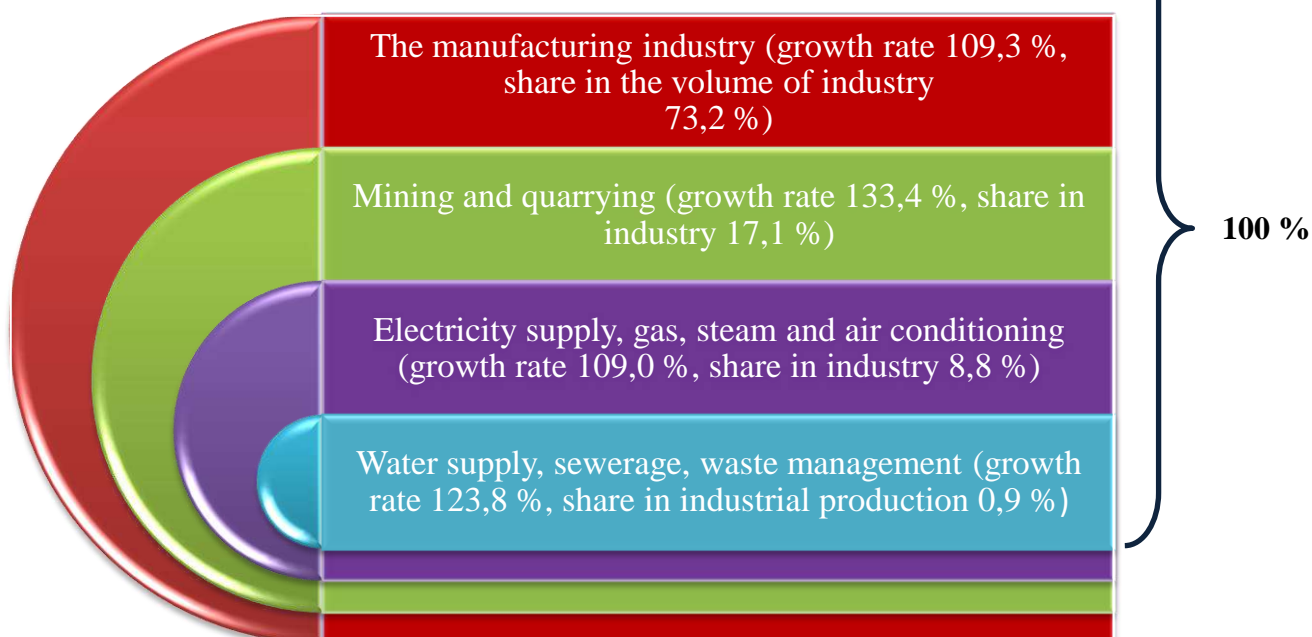

### FIGURES:

- The volume of industrial production amounted to **14,5 trillion. UZS**, an increase of **12,9 %**
- The growth rate of production of consumer goods-**107,1 %**
- The share of consumer goods in total production is - **30,5 %**
- The share of small business in industry is **28,7 %**

According to preliminary data, in January 2018 enterprises of the republic produced industrial products worth 14,5 trillion. UZS, the growth rate to the same period last year amounted to 112,9 %.

The main growth factor in the total volume of industrial production was the growth in manufacturing in the manufacturing industry by 9,3 % (contribution to the increase in total industrial production of 7,1 points), mining and quarrying by 33,4 % (contribution to growth of 4,9 points), electricity, gas, steam and air conditioning by 9,0 % (contribution to the increase of 0,7 points) and water supply, sewerage, waste management by 23,8 % (contribution in increase of 0,2 points).

### The structure of industrial production by main types of economic activity in January 2018

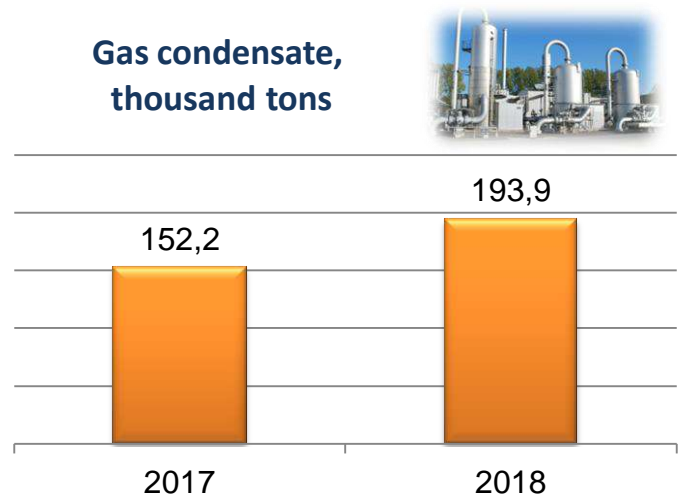

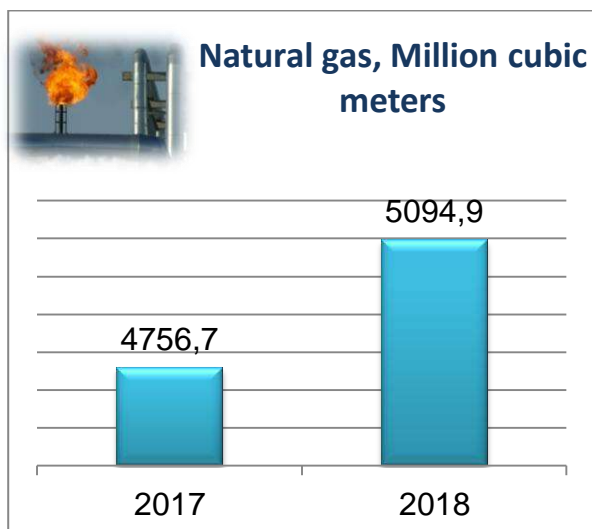

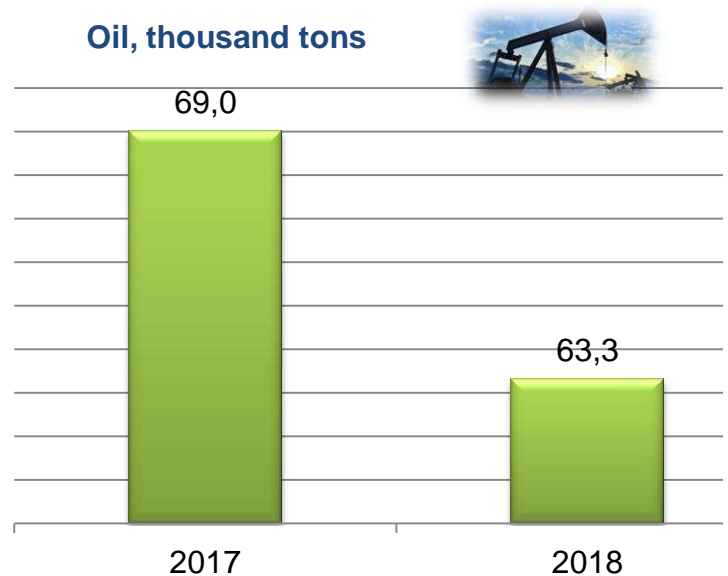

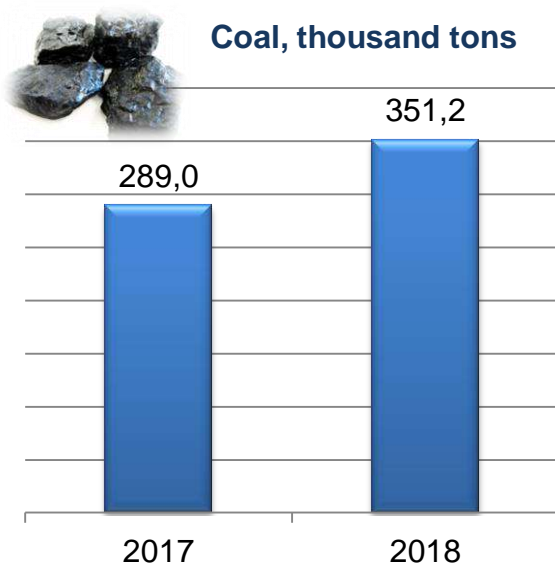

**Mining and quarrying.**

The volume of products produced by mining enterprises and quarrying amounted to 2,5 trillion soums or 17,1 % of the total industry.

In the mining industry by types of products produced compared with the corresponding period last year, there is an increase in mining of crushed stone by 2,7 times, kaolin by 2,2 times, gravel by 83,5 %, gas condensate by 27,4 %, coal by 21,5 % and natural gas by 7,1 %, while oil production is down by 8,2 %.

**Manufacture of selected industrial products  
large industrial enterprises in the mining industry  
and quarrying for January**

### ***Manufacturing.***

The volume of output produced by manufacturing enterprises in January 2018 amounted to 10,6 trillion soums or 73,2 % of the total industry.

In this industry compared with the same period last year, increased production of cars (without specialized) by 60,6 %, automobile engines by 58,2 %, beer by 15,8 %, motor gasoline by 15,4 %, tobacco products by 13,9 % cotton fiber on 0,8 %, and manufacture of lorries, diesel fuel, portland cement, vodka, vegetable oil and buses decreased in comparison with the corresponding period of the last year.

### ***Manufacture of selected industrial products large industrial enterprises in the manufacturing industry in January***

	2017	2018	In % to January 2017
Vegetable oil (refined), thousand tons	17,9	17,3	96,3
Cotton fiber , thousand.tons	127,5	128,6	100,8
Vodka is 1000 liters of alcohol	4417,5	4117,5	93,2
Beer thousand liters	5628,4	6516,9	115,8
Tobacco products, mln.	783,0	892,0	113,9
Automobile gasoline, thousand tons	91,0	105,0	115,4
Diesel fuel, thousand tons	91,5	71,5	78,1
Portland cement, thousand tons	619,7	566,5	91,4
Cars (without specialized), units	7581	12174	160,6
Trucks, units	277	177	63,9
Buses, pieces	40	39	97,5
Automobile engines, pieces	5831	9223	158,2

### ***Electricity, gas, steam and air conditioning.***

The volume of products produced by electricity, gas, steam and air conditioning enterprises amounted to 1,3 trillion soums (8,8% of the total industry).

In this industry, in January 2018, compared with the same period last year, the production of electricity distribution services increased 2,4 times, services for the supply of chilled air and chilled water by 26,3 %, electricity by 6,4 %, services for distribution of gaseous fuel through pipelines by 6,3 %, and heat energy decreased by 4,0 %.

### ***Water supply, sewerage and waste management.***

The volume of products produced by water supply, sewerage, waste collection and disposal enterprises amounted to 122,5 billion soums (0,9 % of the total volume of industry).

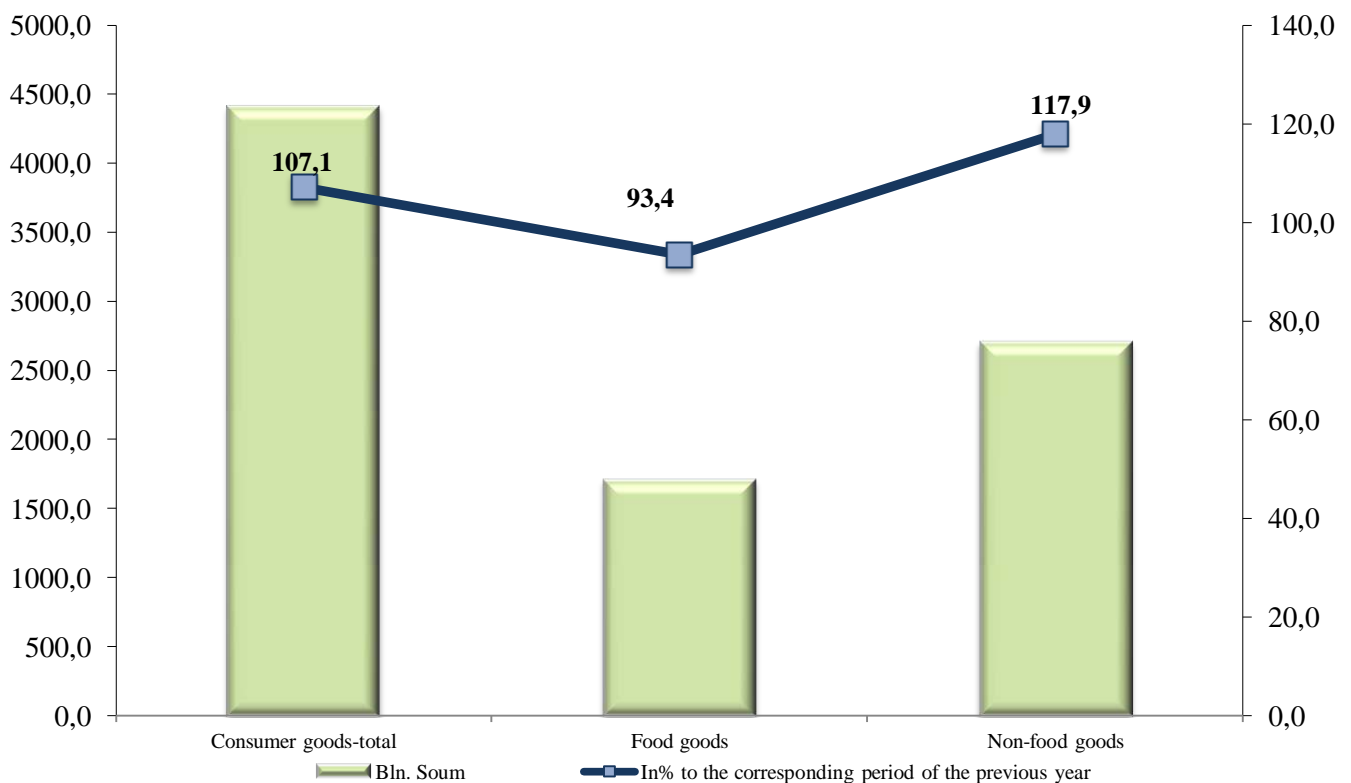

In comparison with the corresponding period of the previous year, there has been an increase in recyclables containing aluminum by 54,5 %, recyclables containing ferrous metals by 38,5 %, services for removal, transportation of waste water and processing thereof by 20,3 %, processing services and distribution of water through water pipes by 11,8 %.

**Manufacture of consumer goods.**

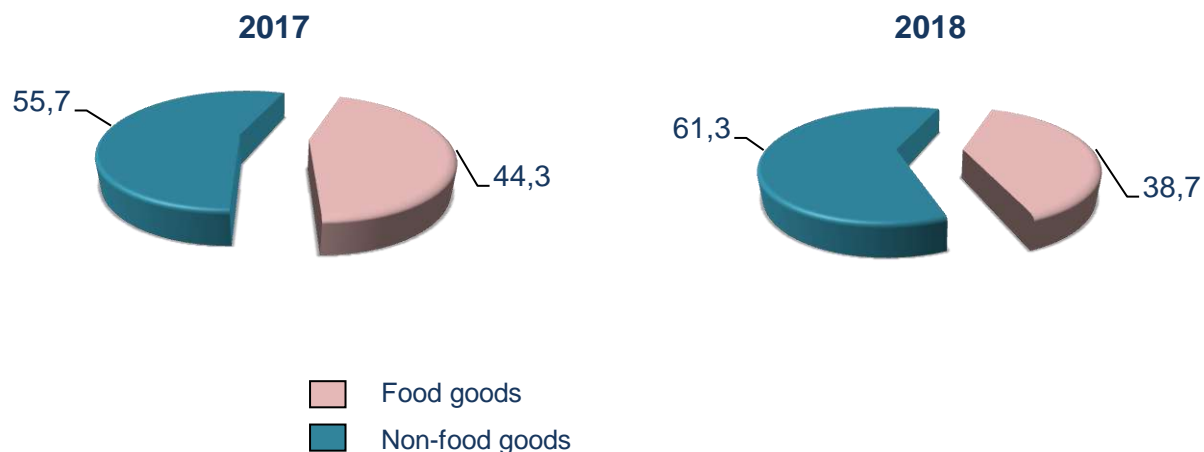

As a result of the measures taken to expand the assortment and stimulate the output of finished goods, the production of consumer goods amounted to 4,4 trillion soums and, as compared to January 2017, increased by 7,1 %, the share in the total volume of industry was 30,5 %.

**The volume and growth rates of consumer goods production for January 2018**

In comparison with January 2017, in the structure of consumer goods in January 2018 an increase in the share of production of non-food products from 55,7 % to 61,3 % was noted.

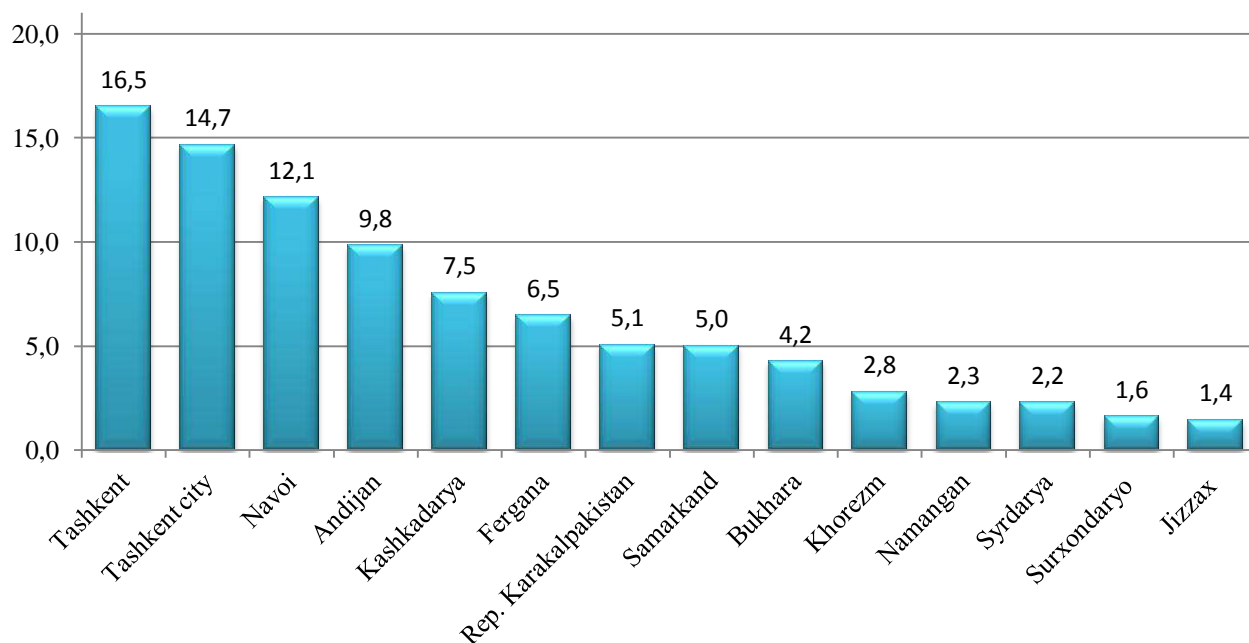

**Structure of production of consumer goods in January, in %**

**Industrial production of regions.**

The largest share in the structure of output of industrial output of the republic is in the Tashkent region (16,5 % of the republican industry), Tashkent (14,7 %), Navoi (12,1 %), Andijan (9,8 %), Kashkadarya (7,5 %), Fergana (6,5 %) areas.

**The share of regions in the total volume of industrial production in January 2018, in %**

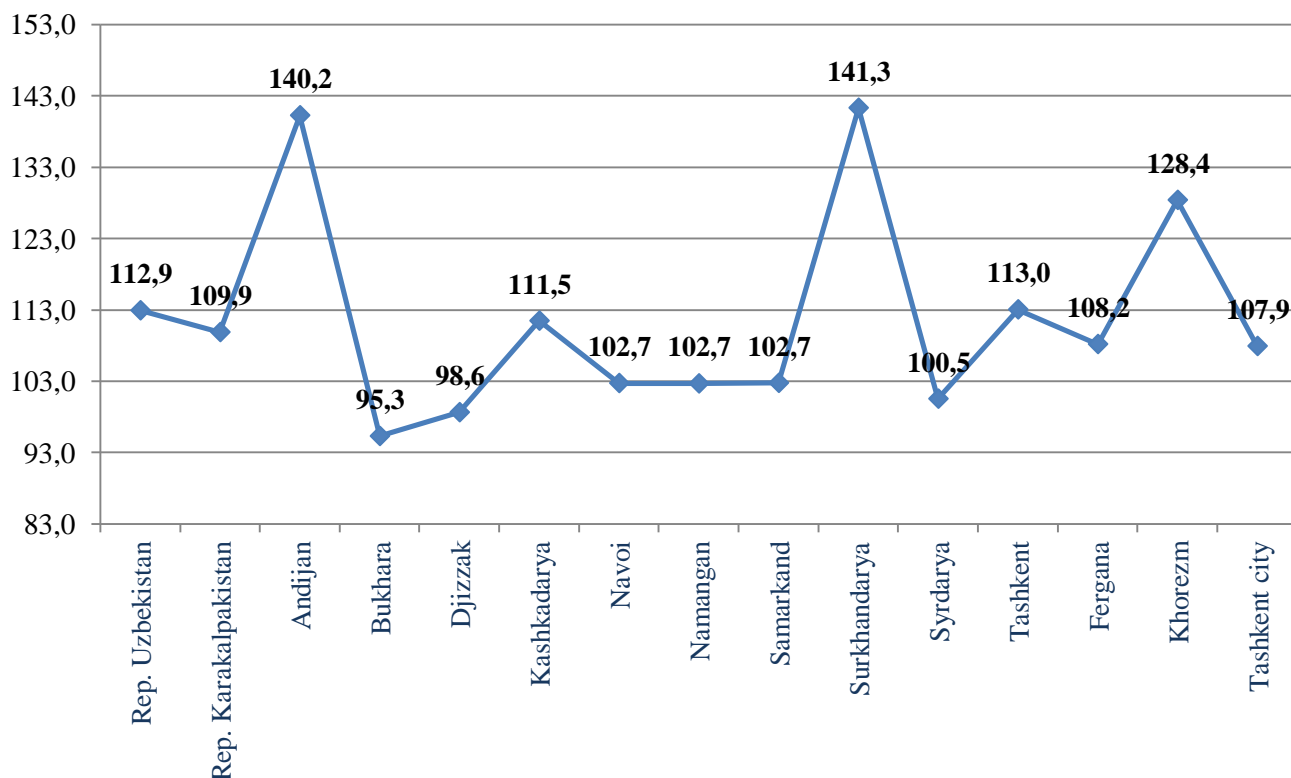

At the same time, the least specific weight falls on the Djizzak (1,4 %), Surkhandarya (1,6 %), Syrdarya (2,2 %), Namangan (2,3 %) and Khorezm (2,8 %) regions.

It should be noted that the implementation of high-tech projects for the production of competitive products contributed to a significant increase in production in Surkhandarya (141,3 % by January 2017), Andijan (140,2 %), Khorezm (128,4 %), Tashkent (113,0 %) and Kashkadarya (111,5 %) regions and the Republic of Karakalpakstan (109,9 %).

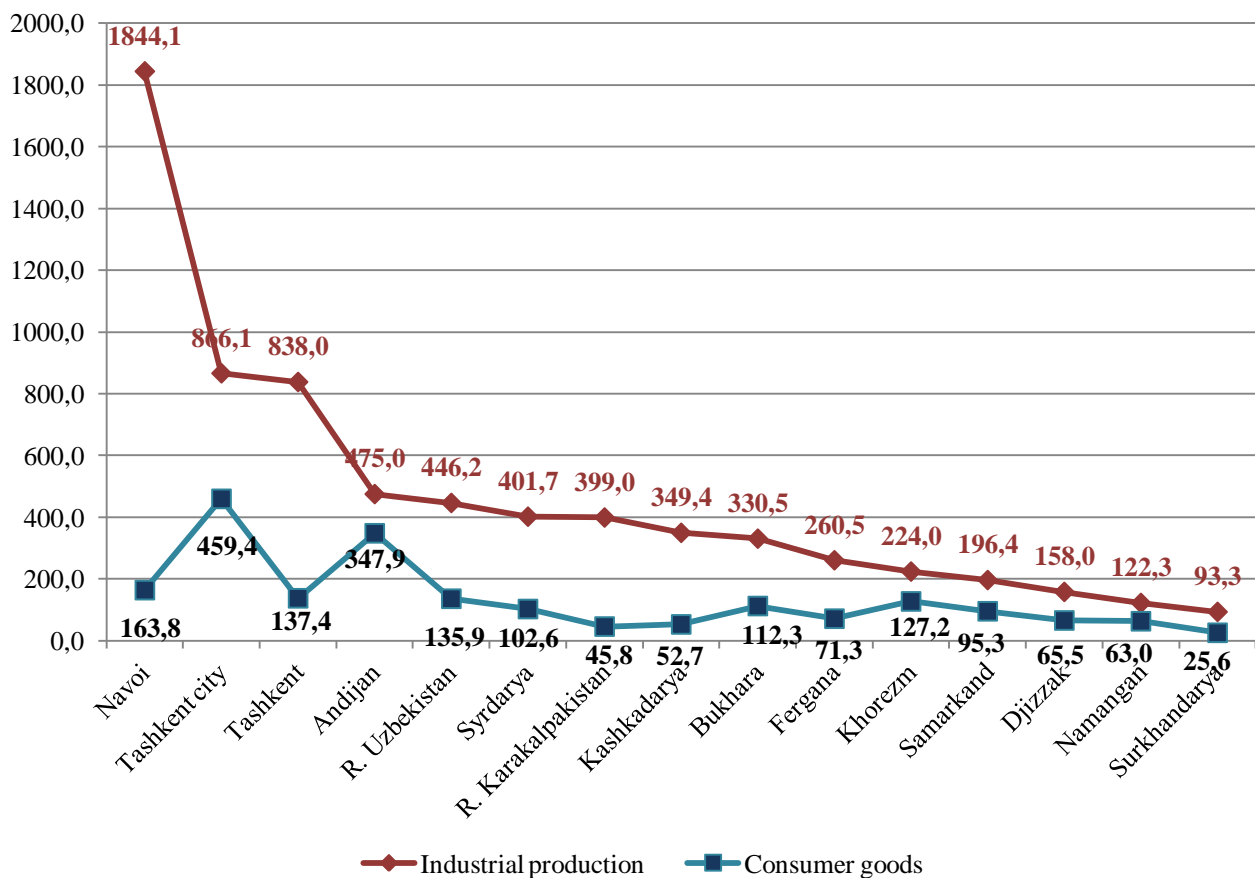

**The growth rate of industrial production by region  
for January 2018**

*(in % to the corresponding period of the previous  
year)*

Analysis of the differentiation of industrial production per capita shows the excess of the average republican indicator (446,2 thousand soums) in the Navoi region (1844,1 thousand soums), Tashkent (866,1 thousand soums), Tashkent (838,0 thousand soums) and Andijan (475,0 thousand soums) to the regions.

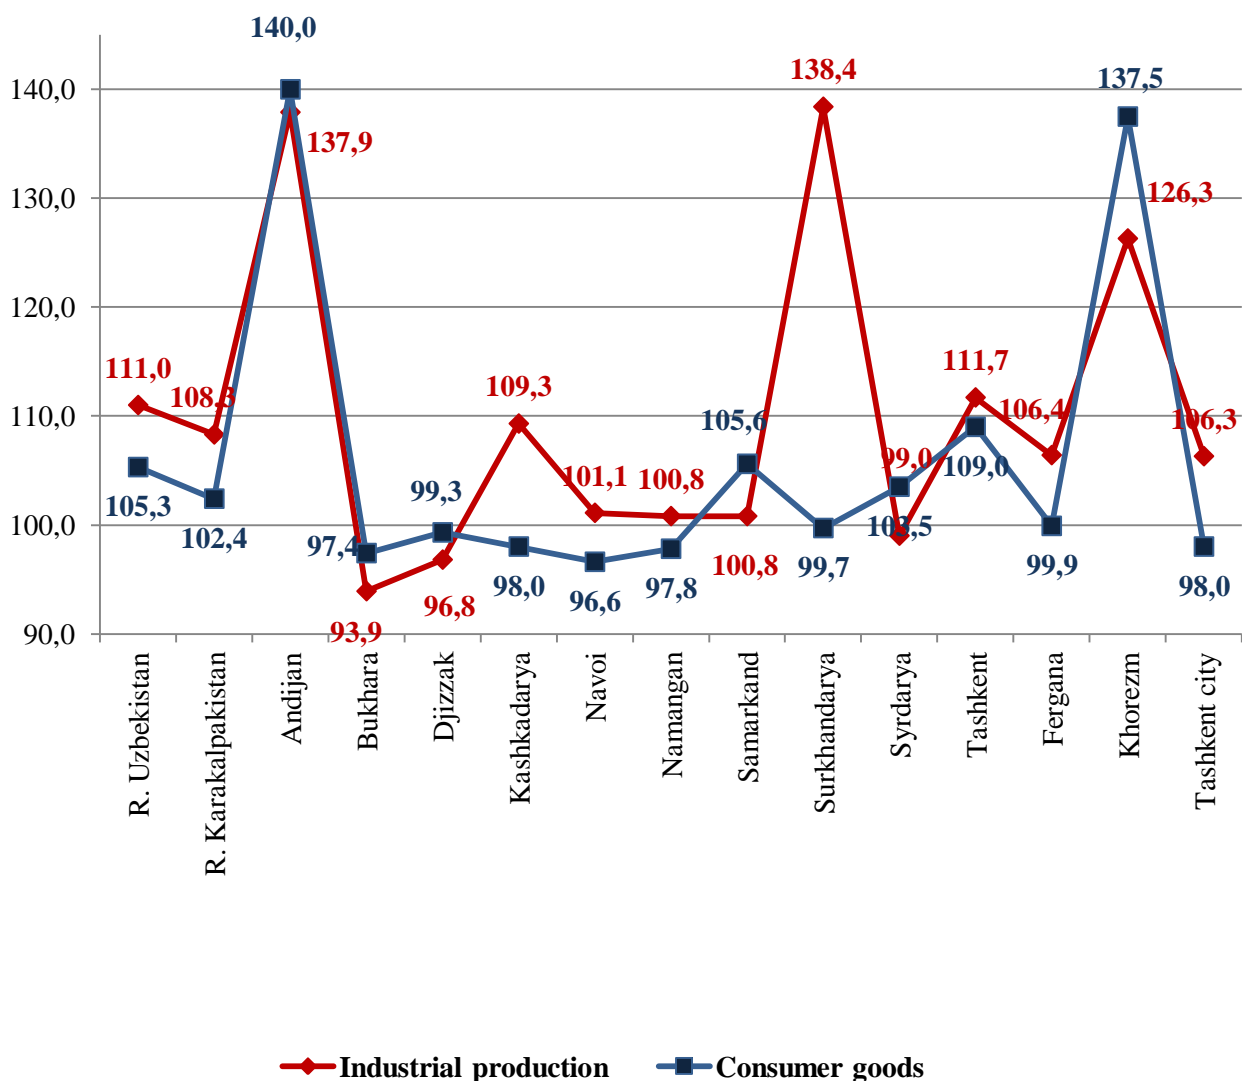

**Average per capita output of industrial products and consumer goods by region for January 2018, in thousands of soums**

In the context of regions, high growth rates of average per capita output of industrial products are observed in Surkhandaryya (138,4 % of January 2017), Andijan (137,9 %), Khorezm (126,3 %) and Tashkent (111,7 %) regions.

**The growth rates of average per capita output of industrial products and consumer goods by region in January**  
(in % to the corresponding period of the previous year)

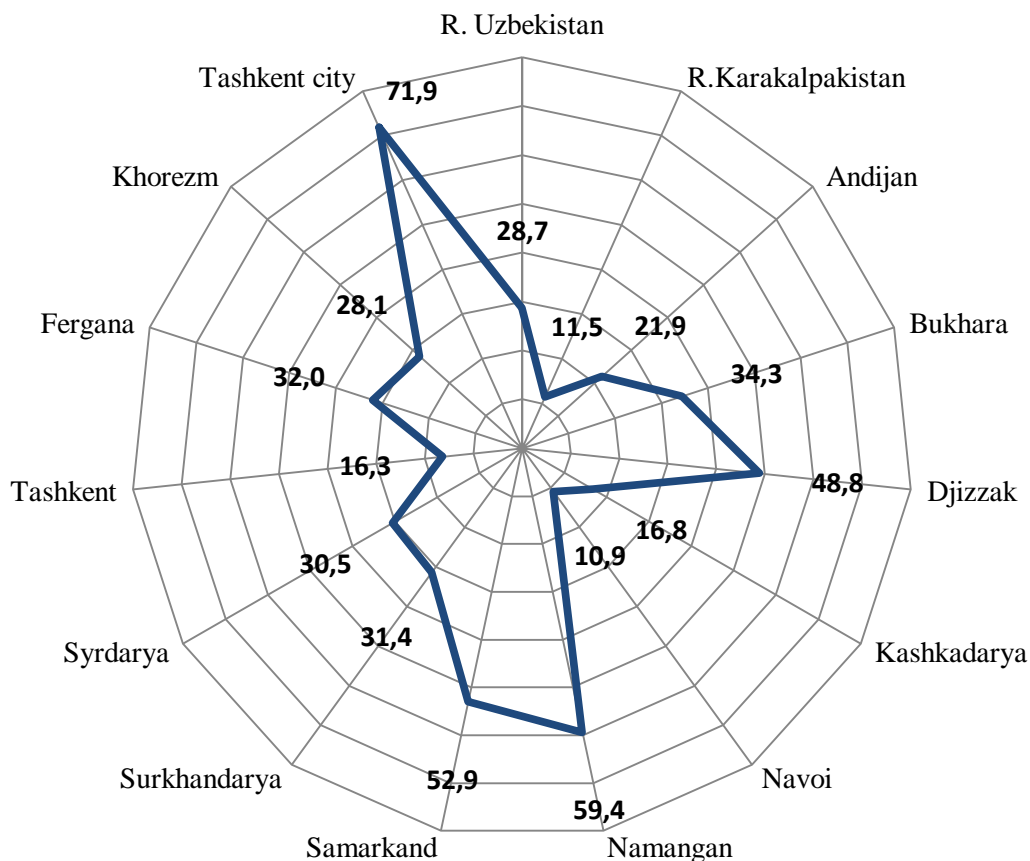

**The contribution of small businesses to industrial production.**

Dynamic development of industrial activity of small business entities ensured the growth of industrial production by the corresponding period of the previous year by 2,2 %, while the share of small business in industry was 28,7 %.

In terms of regions, the largest share of small business is observed in Tashkent (71,9 % of the total volume of industry), Namangan (59,4 %), Samarkand (52,9 %) and Djizzak (48,8 %). At the same time, the smallest share of small business is observed in the Navoi region (10,9 %), the Republic of Karakalpakstan (11,5 %), Tashkent (16,3 %) and Kashkadarya (16,8 %) regions.

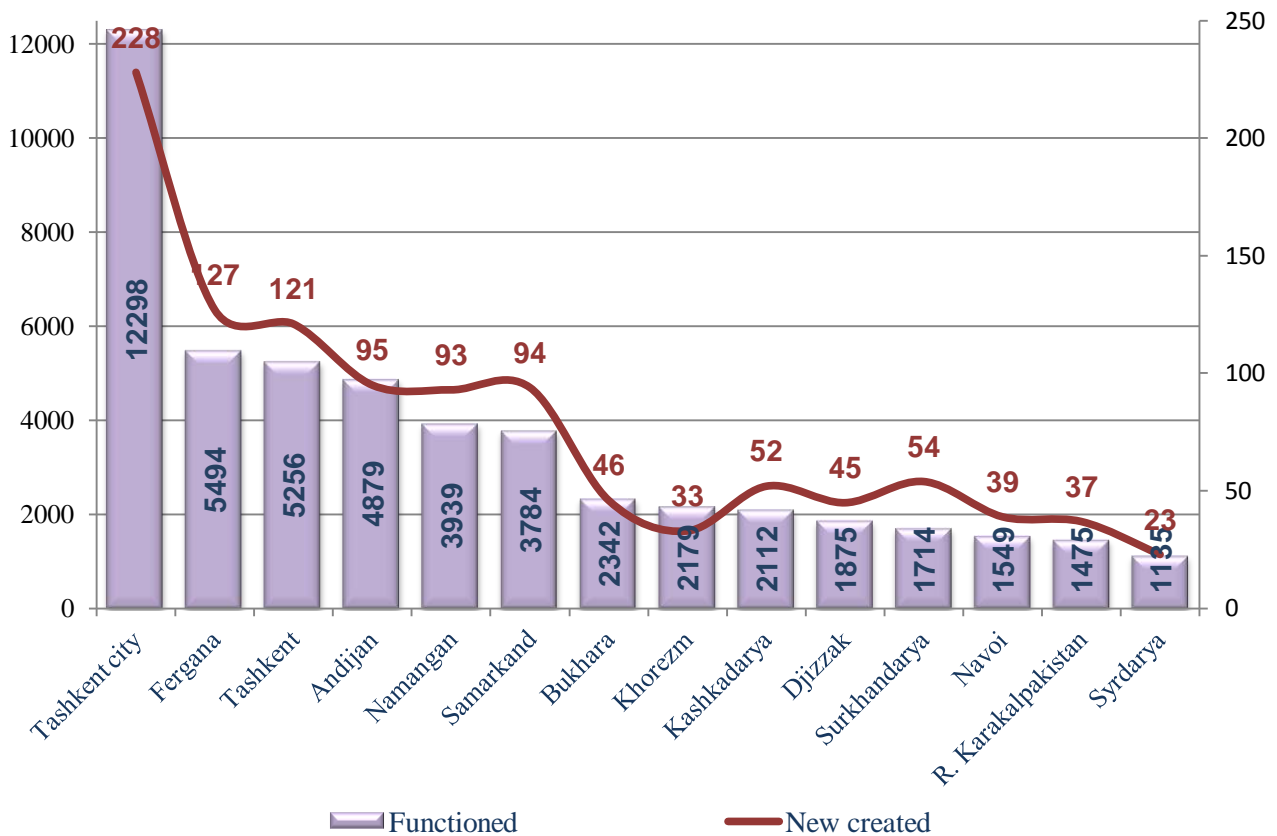

***The share of small businesses in total industrial production by region in January 2018, in %***

***The existing and newly created enterprises of industry.***

To date, there are more than 50000 industrial enterprises in the republic, of which 12298 enterprises are located in Tashkent, 5494 in Fergana, 5256 in Tashkent, 4879 in Andijan, 3399 in Namangan, 3784 in Samarkand, 2342 - to Bukhara, 2179 - to Khorezm, 2112 - to Kashkadarya, 1875 - to Djizzak, 1714 - to Surkhandarya, 1549 - to Navoi, 1135 - to Syrdarya region and 1475 enterprises to the Republic of Karakalpakstan.

### The number of existing and newly established industrial enterprises as of February 1, 2018

During January of this year, a new 1,1 thousand industrial enterprises, of which about 70 % are located in Tashkent, Fergana, Tashkent, Andijan, Namangan and Samarkand regions.
