

THE STATE COMMITTEE OF THE REPUBLIC OF UZBEKISTAN ON STATISTICS

Industrial production of Republic of Uzbekistan for January-February, 2018

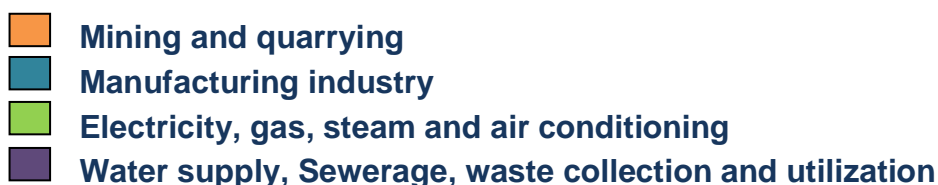

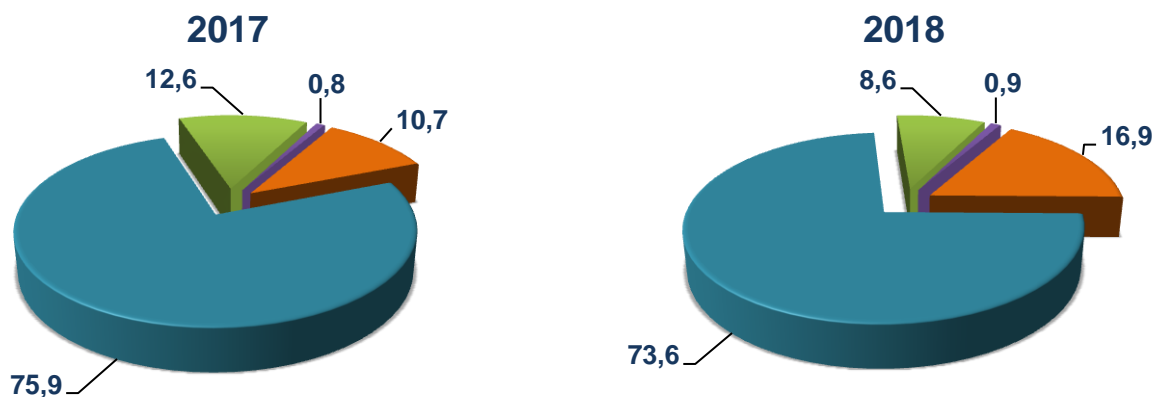

FIGURES:

- The volume of industrial production amounted to 28.3 trillion. sum, an increase of 11.7%
- The growth rate of consumer goods production is 105.0%
- The share of consumer goods in the total production - 30,5%
- The share of small business in industry is 28.6 %

According to preliminary data, in January-February 2018 enterprises of the Republic produced industrial products for 28.3 trillion . sum, the growth rate for the same period last year amounted to 111.7 %.

The main factor in the growth of total industrial production was the growth of production in manufacturing by 8.4 % (contribution to the growth of total industrial production by 6.5 points), mining and quarrying by 32.4 % (contribution to the growth of 4.6 points), electricity, gas, steam and air conditioning by 4.9 % (contribution to the growth of 0.4 points) and water supply, sewage and waste disposal by 28.3 % (contribution the increase of 0.2 points).

Structure of industrial production by main economic activities in January-February, in %

Mining and quarrying.

The volume of goods produced by enterprises of the mining and quarrying amounted to 4.8 trillion.sum or 16.9% of the total industry.

In the mining industry by types of products compared with the corresponding period last year, there is an increase in production of crushed stone 2.6 times, kaolin 86.5 %, gravel by 73.4 %, coal by 23.1 %, gas condensate by 21.3 %, and natural gas by 6.5%, while oil production is reduced by 9.7%.

Production of certain types of industrial products large industrial enterprises in mining and quarrying in January-February %.

Production for 2017	Mining products and quarrying	Production for 2018	Growth rate, in %
Coal, thousand tons			
585,7		721,0	123,1 ↑
Oil, thousand tons			
134,0		121,0	90,3 ↓
Natural gas, million cubic meters			
9058,2		9649,7	106,5 ↑
Gas condensate, thousand tons			
291,7		353,8	121,3 ↑

Manufacturing industry.

The volume of manufactured products by manufacturing enterprises in January-February 2018 amounted to 20.8 trillion.sum or 73.6% of the total industry.

At the same time, in this industry in comparison with the corresponding period last year increased the production of automobile engines by 51.5 %, passenger cars (without specialized) by 42.6 %, motor gasoline by 17.2 %, cotton fiber by 1.0 %, and the production of trucks, buses, Portland cement, diesel, tobacco products and vegetable oil decreased compared to the corresponding period last year.

Production of certain types of industrial products large industrial enterprise in manufacturing industry in January-February

Production for 2017	Manufacturing products	Production for 2018	Growth rate, in %
Cars (without specialized), pieces			
17315		24695	142,6 ↑
Trucks, pieces			
557		296	53,1 ↓
Buses, pieces			
132		94	71,2 ↓

Production for 2017	Manufacturing products	Production for 2018	Growth rate, in %
	Car engines, pieces		
13131		19897	151,5 ↑
	Cotton fiber, thousand tons		
246,1		248,7	101,0 ↑
	Vegetable oil (refined), thousand tons		
42,7		42,4	99,3 ↓
	Tobacco products, million PCs		
1597,0		1517,0	95,0 ↓
	Motor gasoline, thousand tons		
175,6		205,8	117,2 ↑
	Diesel fuel, thousand tons		
172,1		163,3	94,9 ↓
	Portland cement, thousand tons		
1204,4		1066,5	88,6 ↓

Electricity, gas, steam and air conditioning.

The volume of production produced by the enterprises of power supply, gas supply, steam and air conditioning amounted to 2.4 trillion.sum (8.6% of total industry).

In this industry, in January-February 2018, compared with the

corresponding period last year, increased production, transmission and distribution of electricity, steam and air conditioning systems by 4.9% and the production and distribution of gaseous fuels by 5.4 %.

Water supply, Sewerage, collection and disposal of waste.

The volume of products produced by enterprises of water supply, Sewerage, collection and recycling amounted to 261.2 billion soums ((0.9% of the total volume of industry-news).

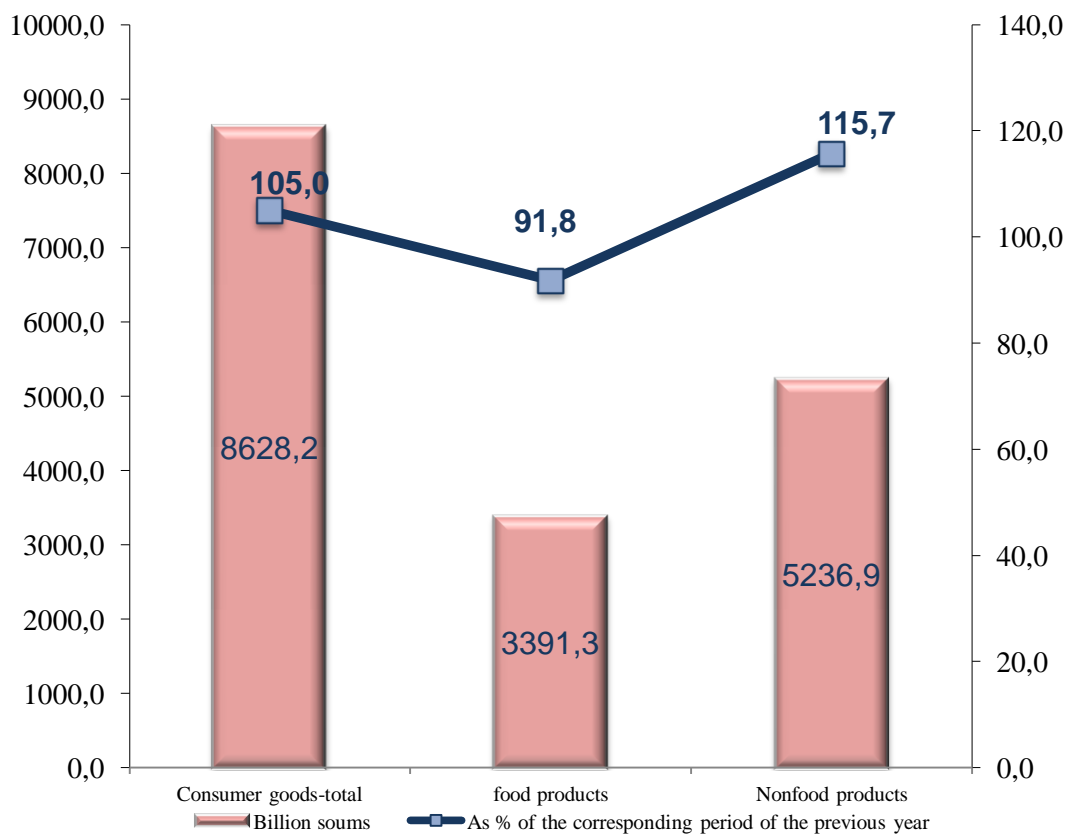

In comparison with the corresponding period of last year, there is an increase in recyclable materials containing aluminum by 46.7 %, recyclable materials containing ferrous metals by 45.7 %, services for the removal, transportation and treatment of wastewater 18.7 %, services for the treatment and distribution of water through the water supply 17.5%.

Consumer goods production.

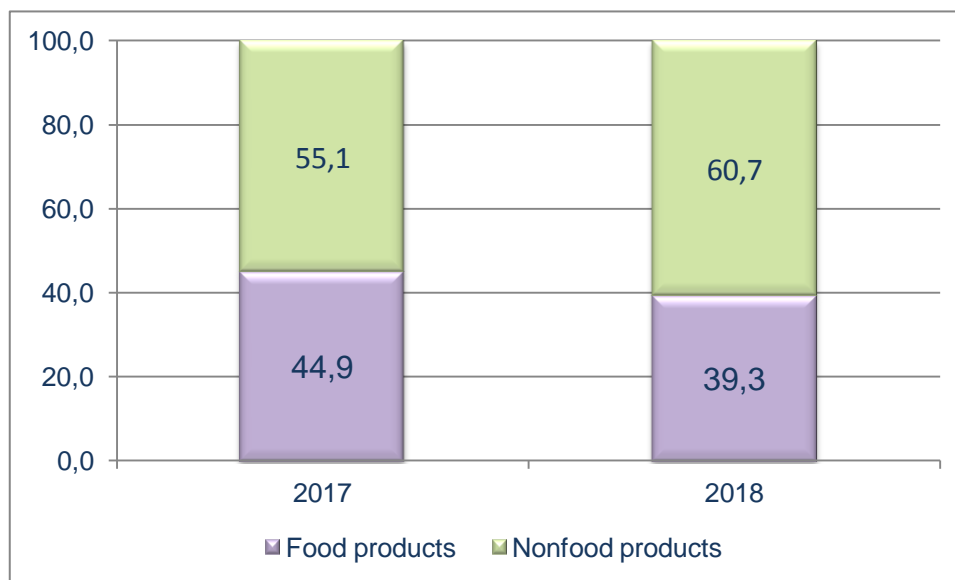

As a result of the measures taken to expand the range and stimulate the production of finished products, the production of consumer goods amounted to 8,6 trillion.sum and compared to January-February 2017 increased by 5.0 %, the share in the total volume of industry was 30.5 %.

**Volume and growth rates of consumer goods production
for January-February 2018**

In comparison with January-February 2017, in the structure of consumer goods in January-February of 2018, a marked increase in the proportion of the production of nonfood products from 55.1 per cent to 60.7 per cent.

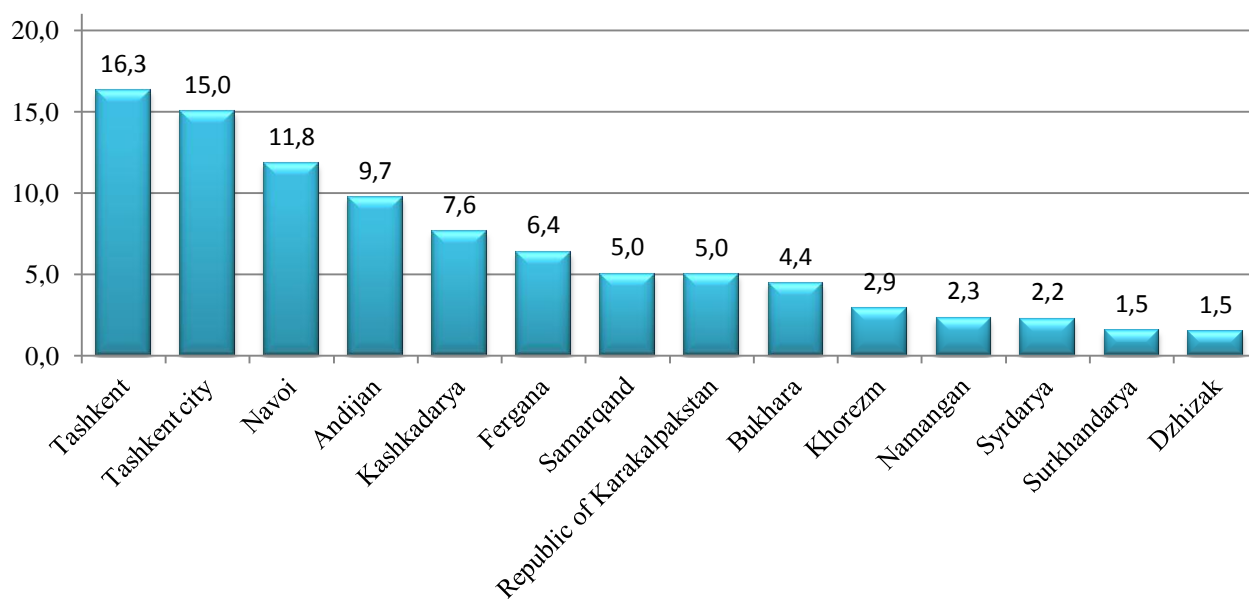

Structure of production of consumer goods for January-February, in %

Industrial production of regions.

In the structure of industrial production of the Republic, the largest share falls on the Tashkent region (16.3% of the national volume of industry), Tashkent (15.0%), Navoi (11.8%), Andijan (9.7%), Kashkadarya (7.6%), Fergana (6.4 %) regions.

The share of regions in the total industrial volume production for January-February 2018, in %

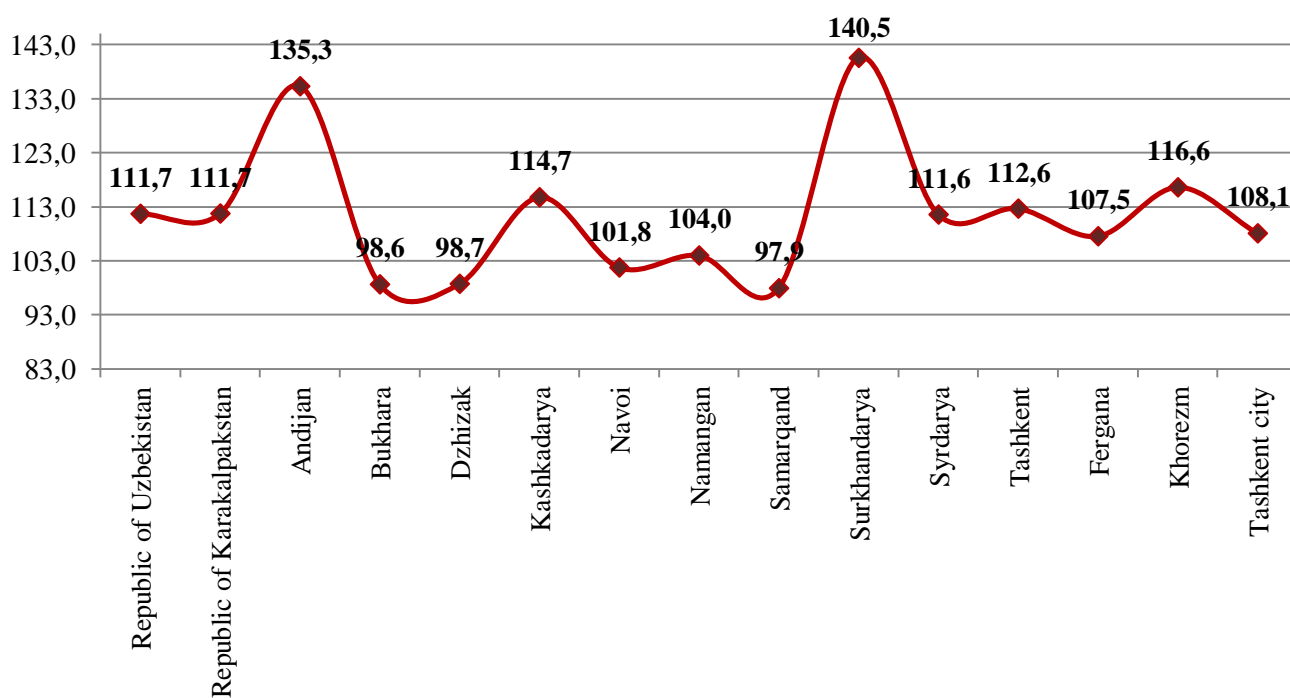

At the same time, the lowest share falls on Dzhizak (1,5 %), Surkhandarya (1,5 %), Syrdarya (2,2 %), Namangan (2,3 %) and Khorezm (2,9 %) regions.

It should be noted that the implementation of high-tech projects for the production of competitive products has contributed to a significant increase in production in Surkhandarya (140.5% by January-February 2017), Andijan (135.3%), Khorezm (116.6%), Kashkadarya (114.7 %) and Tashkent (112.6 %) regions.

Growth rates of industrial production by region

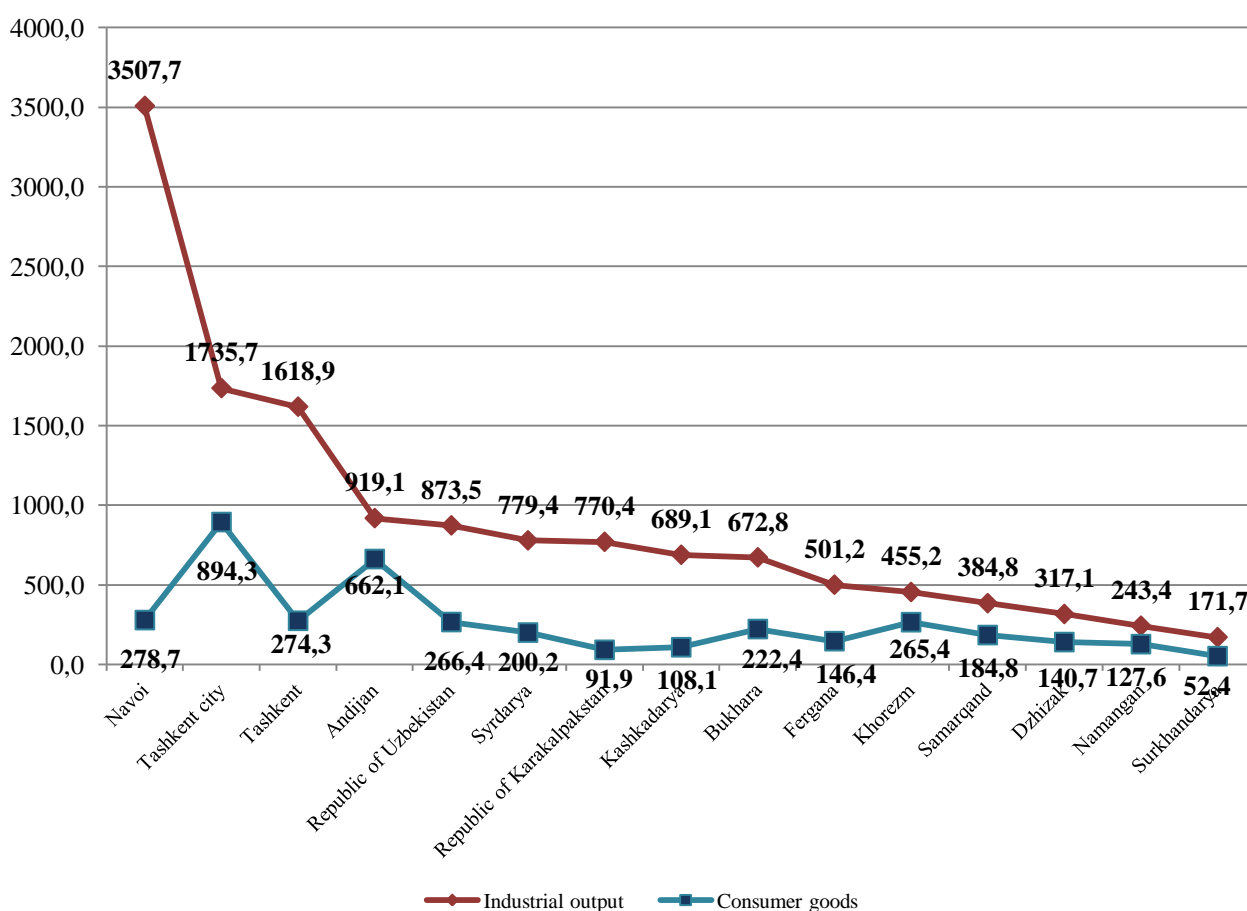

for January-February 2018

(as % of the corresponding period of the previous year)

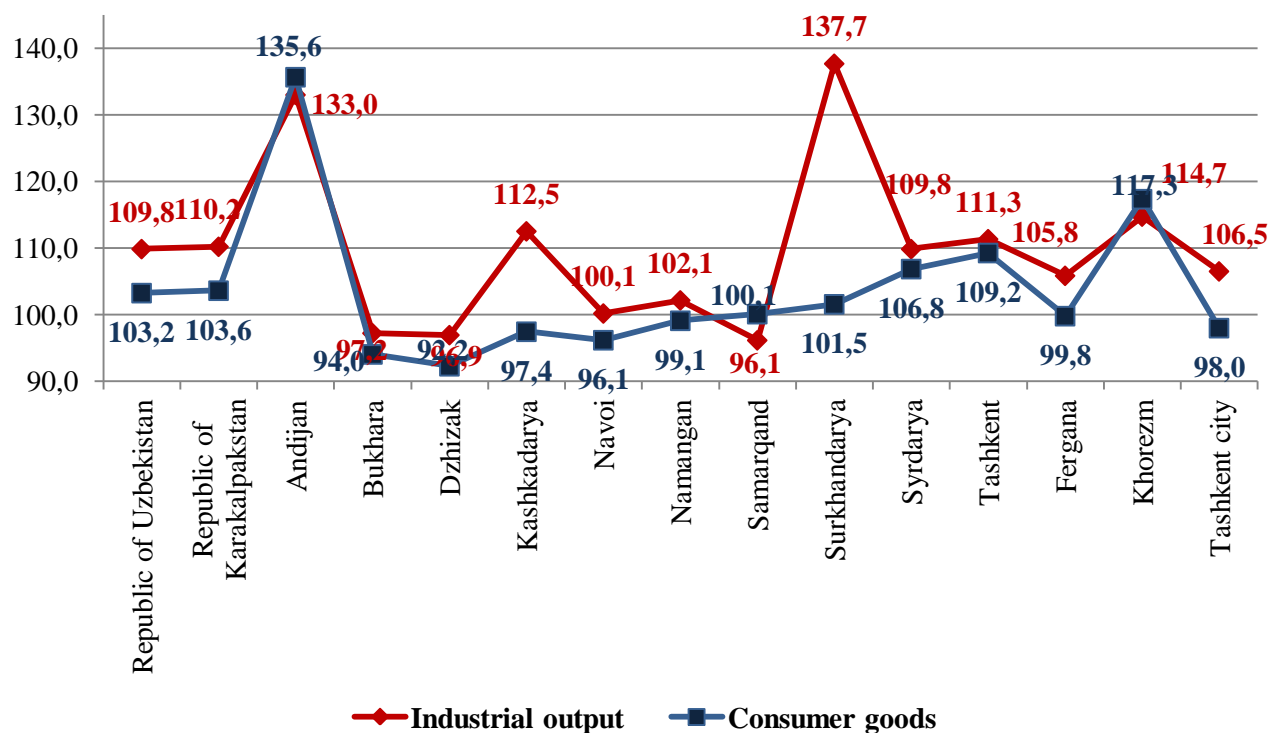

The analysis of differentiation of industrial production per capita shows the excess of the national average (873.5 thousand soums) in the Navoi region (3507.7 thousand soums), Tashkent (1735.7 thousand soums), Tashkent (1618.9 thousand soums) and Andijan (919.1 thousand soums) regions.

**Per capita volume of industrial production
and consumer goods by region
in January-February of 2018, in thousands of UZS**

In the context of the regions, high growth rates of the average per capita production of industrial products are observed in Surkhandarya (137.7 % compared to January-February 2017), Andijan (133,0 %), Khorezm (114,7 %) and Kashkadarya (112,5 %) regions.

The growth rate of per capita volume of industrial production and of consumer goods by region in January-February 2018
(as % of the corresponding period of the previous year)

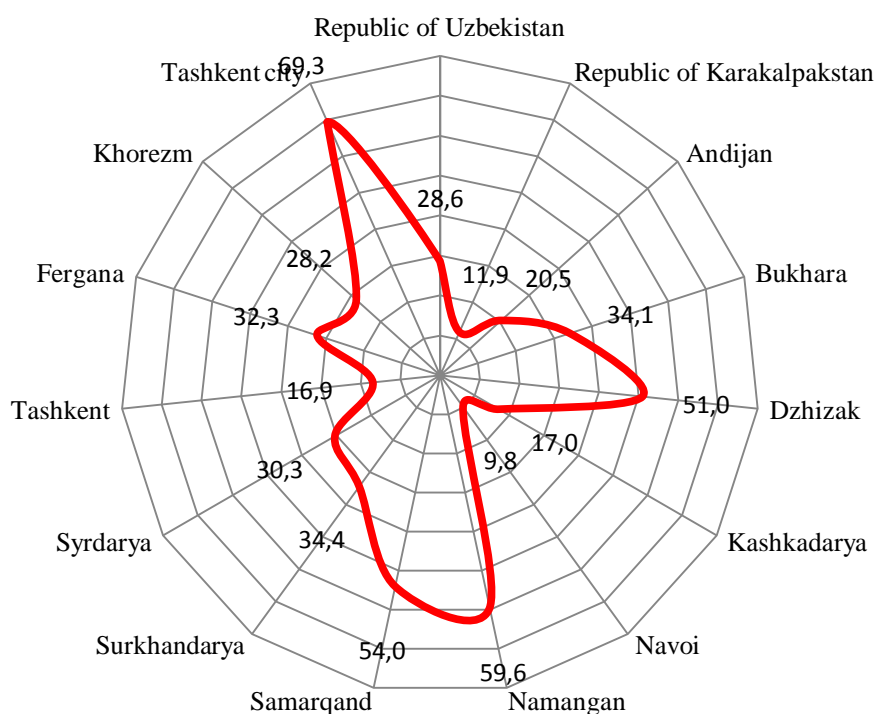

Contribution of small business to industrial production.

The dynamic development of industrial activity of small businesses has ensured the growth of industrial production to the corresponding period last year at 2.0 %, the share of small business in the industry was 28.6 %.

In the context of the regions, the largest share of small businesses is observed in Tashkent (69.3% of the total industry), Namangan (59.6%), Samarkand (54.0 %) and Dzhizak (51.0 %) regions. At the same time, the smallest share of small business is observed in Navoi region (9,8 %), Republic of Karakalpakstan (11,9 %), Tashkent (16,9 %) and Kashkadarya (17,0 %) regions.

The share of small business in the total volume of industrial production by region for January-February 2018, %

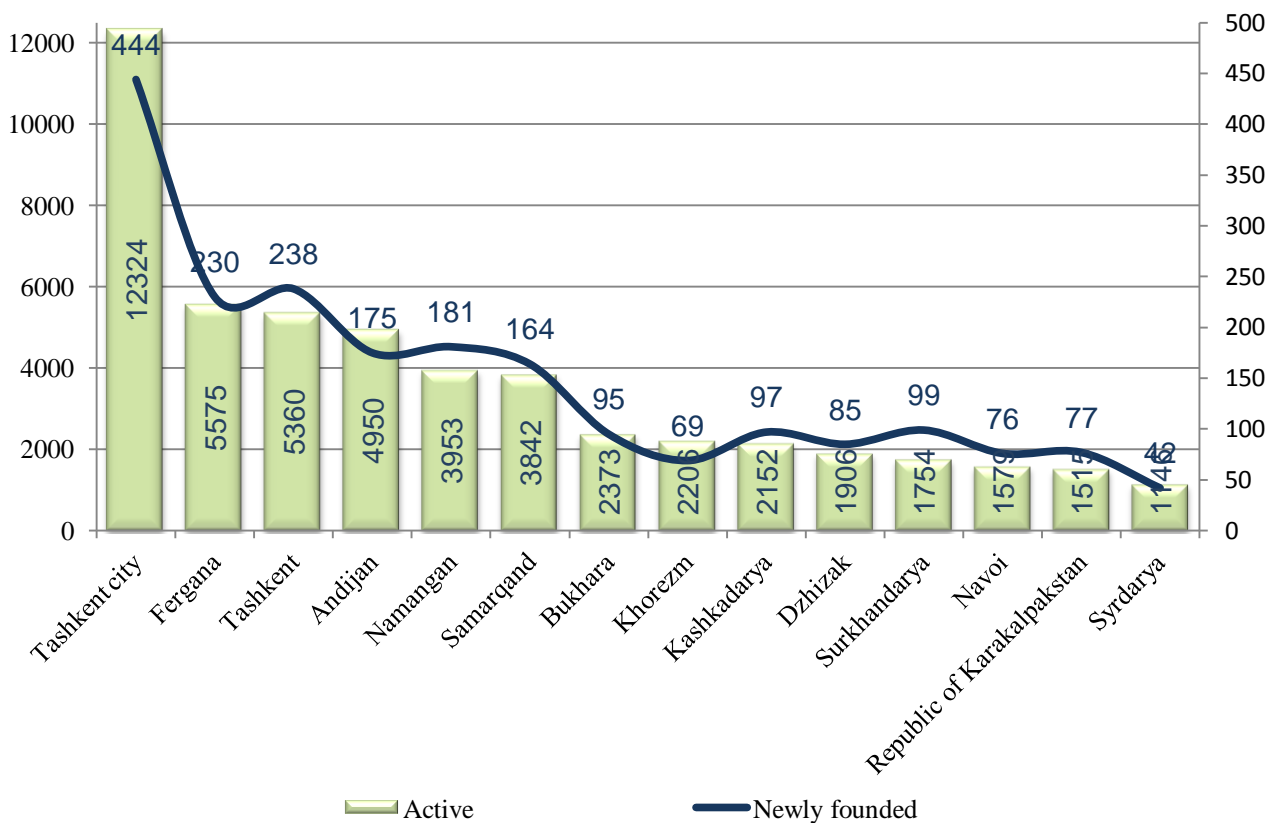

Operating and newly created industrial enterprises.

Today the country has about 51 thousand industrial enterprises, of which Tashkent has 12324 enterprises 5575 – Fergana, 5360 – Tashkent, 4950 – Andijan, 3953 – Namangan, 3842 – Samarkand,

2373-Bukhara, 2206-Khorezm, 2152-Kashkadarya, 1906-Jizzakh, 1754-Surkhandarya, 1579-on Navoi, 1146 – on Syrdarya region and 15 enterprises on the Republic of Karakalpakstan.

Number of existing and newly established industrial enterprises as of March 1, 2018

During January-February this year, 2.1 thousand industrial enterprises were again established in the Republic, of which about 70% falls on Tashkent, Fergana, Tashkent, Andijan, Namangan and Samarkand regions.
