

Industrial production of the Republic of Uzbekistan for January-March 2018

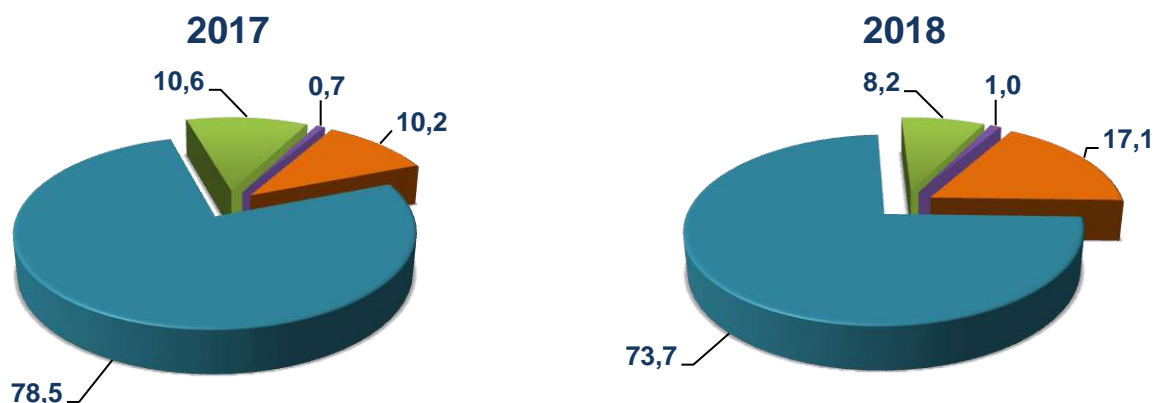

FIGURES:

- The volume of industrial production amounted to **44,5 trillion sums**, an increase of **11,8%**
- The growth rate of consumer goods production - **105,2%**
- The share of consumer goods in the total production - **30,1%**
- The share of small business in the industry is **28,8 %**

According to preliminary data, in January-March 2018 enterprises of the republic produced industrial products for 44,5 trillion soums, the growth rate for the same period of last year was 111,8 %.

The main factor in the growth of total industrial production was the increase in production in the manufacturing industry by 7,6 % (contribution to the increase in total industrial production 5,8 points), mining and quarrying by 36,9 % (contribution to the increase 5,3 points), electricity, gas, steam and air conditioning by 5,2 % (contribution to the increase of 0,4 points) and water supply, Sewerage, collection of and waste disposal by 32,9 % (contribution the increase of 0,3 points).

Structure of industrial production by main types of economic activity in January-March, in %,

- Mining industry and quarrying
- Manufacturing industry
- Power supply, gas supply, steam and air conditioning
- Water supply, Sewerage, collecting and waste disposal

Mining and quarrying.

The volume of goods produced by enterprises of the mining industry and quarry development totaled 7,6 trillion sum or 17,1% of the total industry.

In the mining industry by types of products compared to the corresponding period last year, there is an increase in the production of crushed stone by 2,2 times, kaolin by 97,0 %, gravel by 44,0 %, gas condensate by 19,4 %, coal by 18,4 % and natural gas by 6,4%, while oil production is reduced by 10,3 %.

Production of certain types of industrial products large industrial enterprises in mining and quarrying in January-March

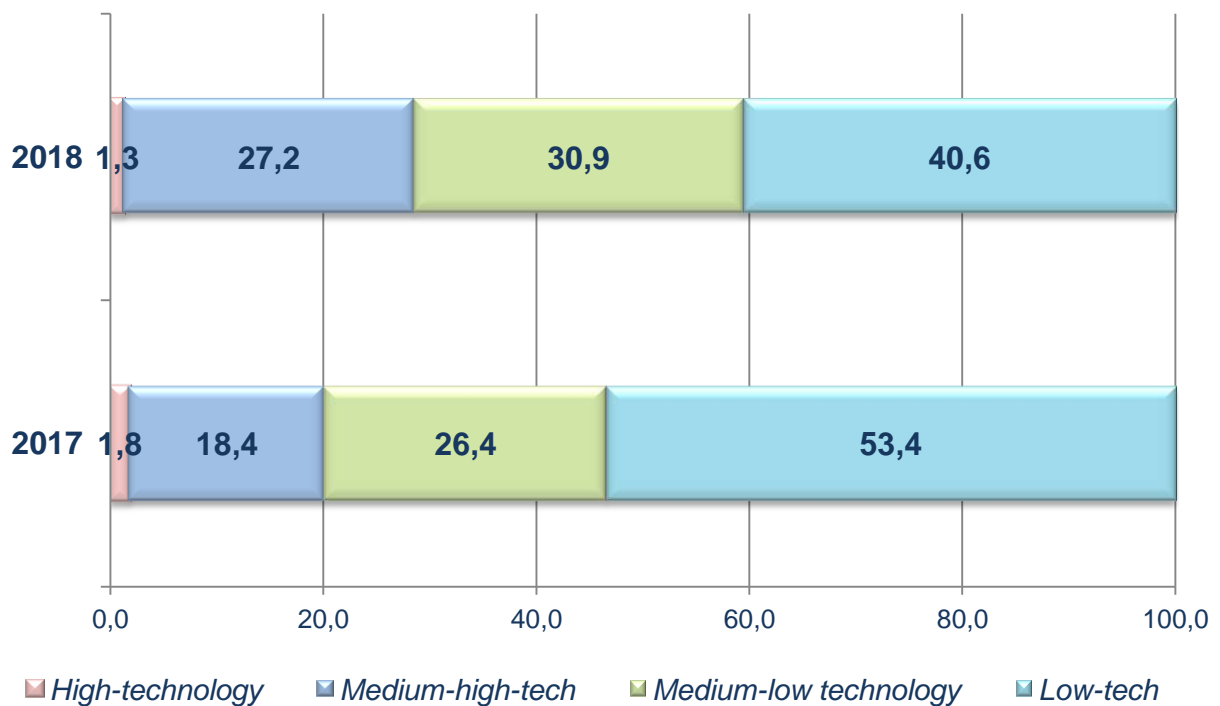

Production for 2017	Mining products and quarrying	Production for 2018	Growth rate, in %
Coal, thousand tons			
918,1		1087,0	118,4 ↑
Oil, thousand tons			
206,0		184,9	89,7 ↓
Natural gas, million cubic meters			
13820,6		14711,8	106,4 ↑
Gas condensate, thousand tons			
447,7		534,5	119,4 ↑

Manufacturing industry.

The volume of manufactured products by manufacturing enterprises in January-March 2018 amounted to 32,8 trillion.sum or 73,7% of the total industry.

In the structure of manufacturing industry, the share of high-tech industries amounted to 1,3 % (in January – March 2017-1.8%), medium - high-tech – 27,2 % (18,4 %), medium-low technology-30.9 % (26.4 %) and low-technology 40,6 % (53,4 %).

The structure of the manufacturing industry on technological effectiveness of production for January-March, in %

At the same time, in this industry compared to with the corresponding period of the previous year, the production of tractors increased 6,1 times, passenger cars (without specialized) by 44,7 %, automobile engines by 43,5 %, paints and varnishes based on acrylic or vinyl polymers by 19,3 %, diesel fuel by 18,2 %, motor gasoline by 11,6 % and vegetable oil the production of cotton fiber, tobacco, Portland cement, buses and trucks decreased by 2,9 % compared to the same period last year.

Production of certain types of industrial products by large industrial enterprises in manufacturing industry in January-March

Production for 2017	Manufacturing products	Production for 2018	Growth rate, in %
Cars (without specialized), pieces			
26287		38029	144,7 ↑
Trucks, pieces			
879		485	55,2 ↓
Buses, pieces			
208		137	65,9 ↓
Car engines, pieces			
21181		30403	143,5 ↑
Cotton fiber, thousand tons			
369,0		366,0	99,2 ↓
Vegetable oil (refined), thousand tons			
66,2		68,2	102,9 ↑

Production for 2017	Manufacturing products	Production for 2018	Growth rate, in %
Tobacco products, mln. pieces			
2507,0		2394,0	95,5 ↓
Motor gasoline, thousand tons			
277,6		309,9	111,6 ↑
Diesel fuel, thousand tons			
246,3		291,2	118,2 ↑
Portland cement, thousand tons			
1976,9		1725,6	87,3 ↓
Paints and varnishes based on acrylic or vinyl polymers, tons			
2041,4		2434,9	119,3 ↑
Tractors, pieces			
71		432	6,1 раз ↑

Electricity, gas, steam and air conditioning.

The volume of products produced by enterprises of electricity, gas, steam and air conditioning amounted to 3,6 trillion sum (8,2 per cent of the total industry).

In this industry, in January-March 2018, compared with the

corresponding period last year, increased production, transmission and distribution of electricity, steam and air conditioning systems by 5,5 % and the production and distribution of gaseous fuels by 1,2 %.

Water supply, Sewerage, waste collection and disposal.

The volume of products produced by water supply, sewerage, waste collection and disposal enterprises amounted to 446,3 billion soums (1,0 % of the total volume of industry).

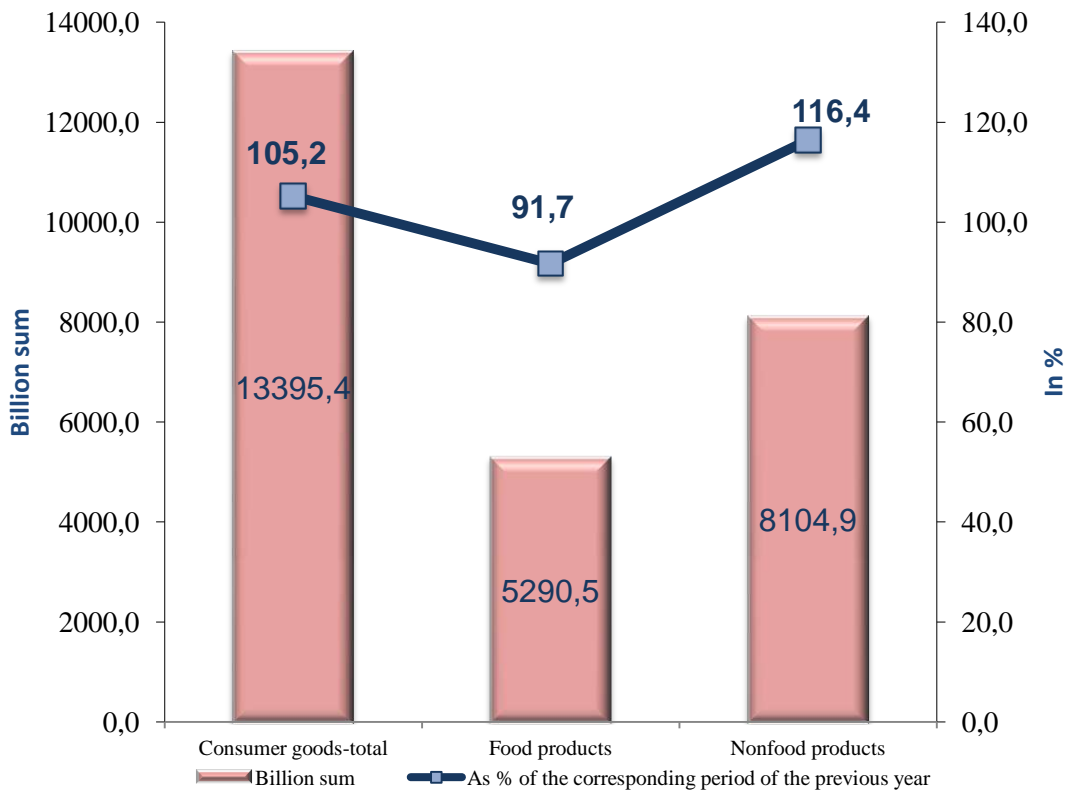

Compared with the corresponding period last year, a growth of recyclable materials containing ferrous metals 71,2 %, recyclables of aluminum containing at 50,1 %, services for the treatment and distribution of water through the water supply by 19,5 %, services-removal, transport of waste waters and their treatment by 10,4 %.

Consumer goods production.

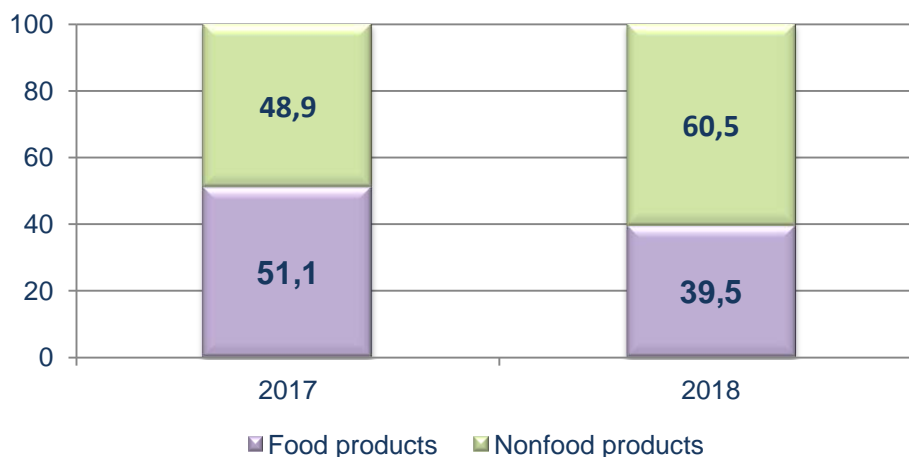

As a result of the measures taken to expand the range and stimulate the production of finished products, the production of consumer goods amounted to 13,4 trillion.sum and compared with January-March 2017 increased by 5,2 %, the share in the total volume of industry was 30,1 %.

Volume and growth rates of consumer goods production for January-March 2018

Compared with January-March 2017, in the structure of consumer goods in January-March 2018 there was an increase in the share of production of non-food products from 48,9 % to 60,5 %.

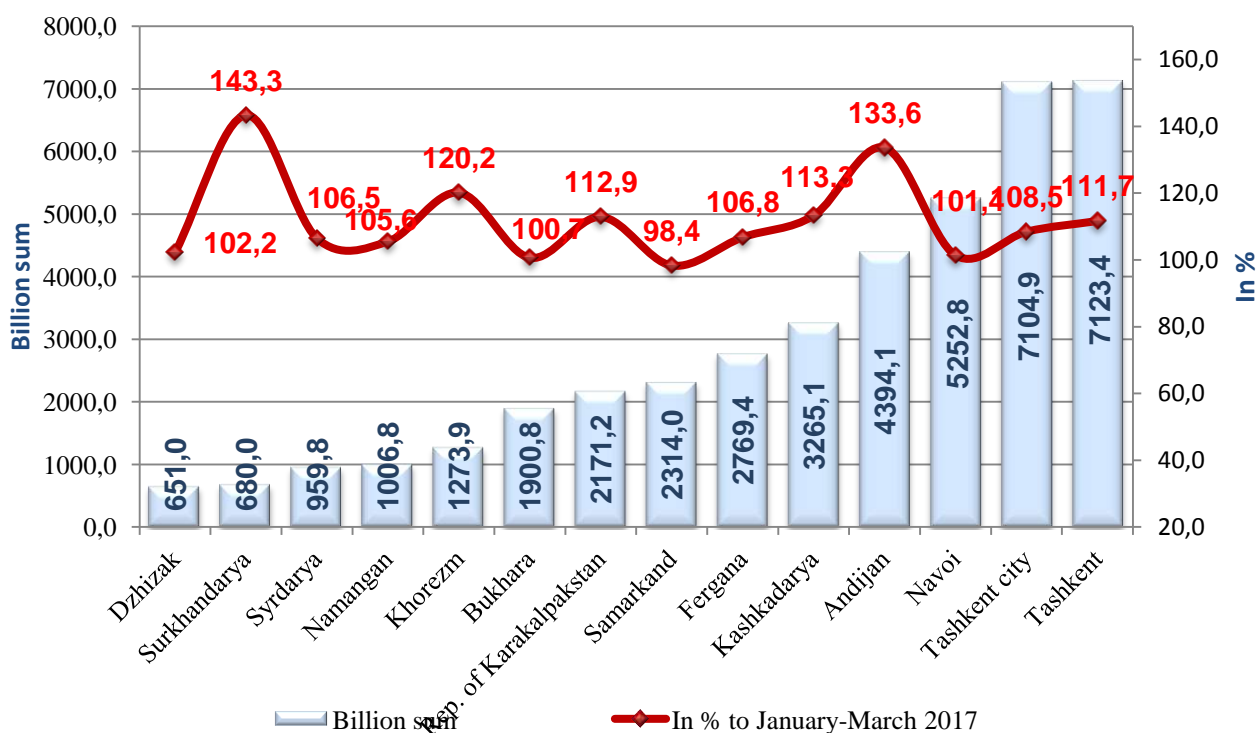

**Structure of production of consumer goods
for January - March, in %**

Industrial production of regions.

In the structure of industrial production of the Republic, the largest share falls on the Tashkent region and Tashkent (16,0 % of the national volume of industry), Navoi (11,8 %), Andijan (9,9 %), Kashkadarya (7,3 %), Fergana (6,2 %) region.

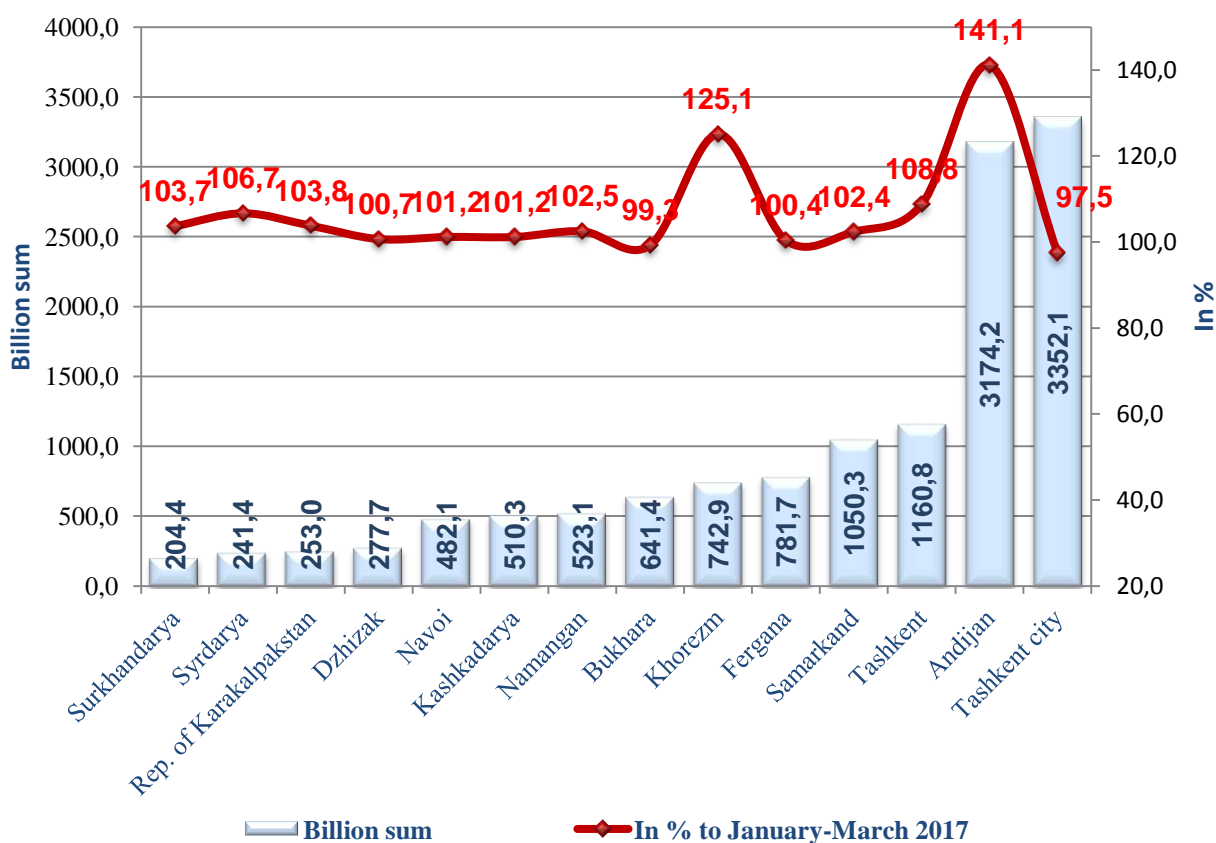

**Volumes and growth rates of industrial production by region for
January-March 2018**

At the same time, the smallest share falls on Dzhizak and Surkhandarya (1,5 %), Syrdarya (2,2 %), Namangan (2,3 %) and Khorezm (2,9 %) regions.

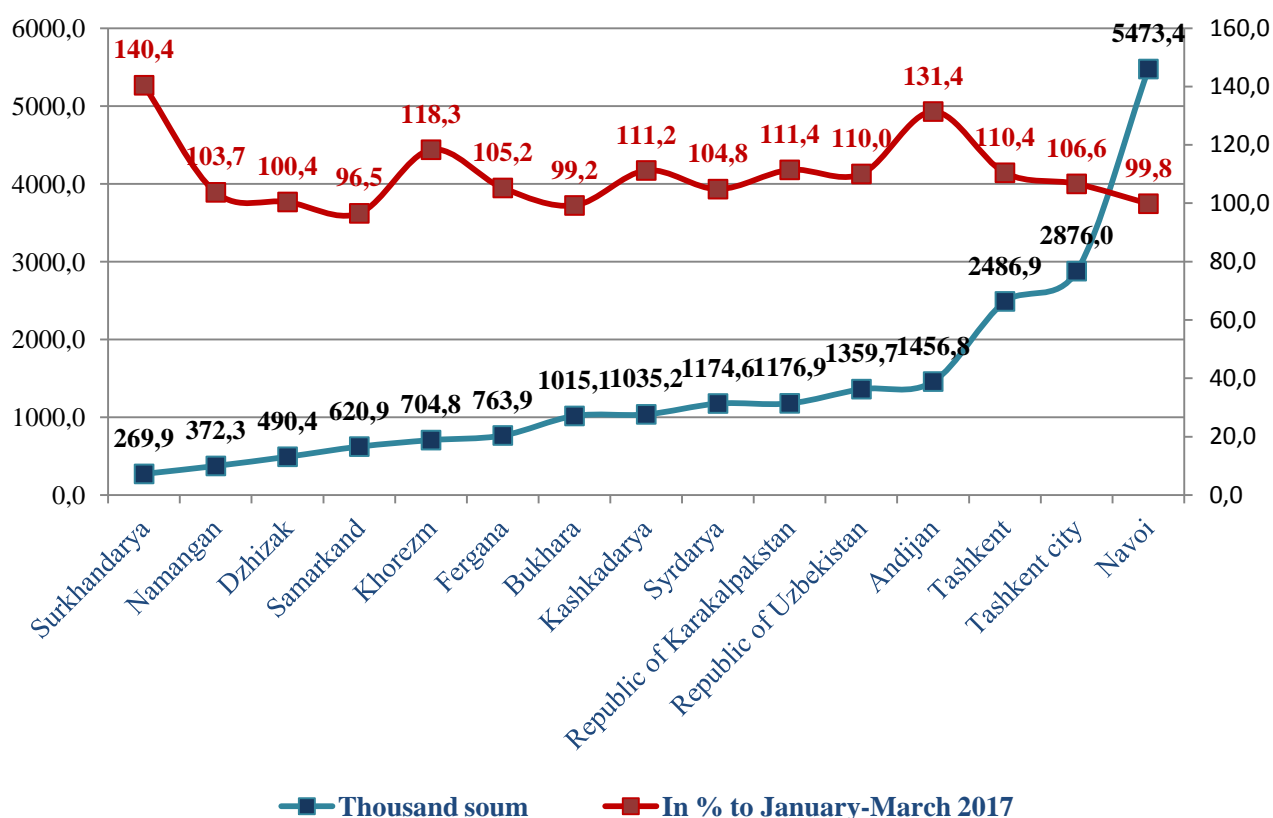

It should be noted that the implementation of high-tech projects for the production of competitive products contributed to a significant increase in production in Surkhandarya (143,3 % compared to January-March 2017), Andijan (133,6 %), Khorezm (120,2 %), Kashkadarya (113,3 %) regions and the Republic of Karakalpakstan (112,9 %).

Volumes and growth rates of consumer goods production by regions in January-March 2018

The analysis of differentiation of industrial production per capita shows the excess of the average national figure (1359,7 thousand soums), Navoi region (5473,4 thousand soums), Tashkent (2876,0 thousand soums), Tashkent (2486,9 thousand soums) and Andijan (1456,8 thousand soums) areas.

Average per capita volumes and growth rates of industrial production by regions in January-March 2018

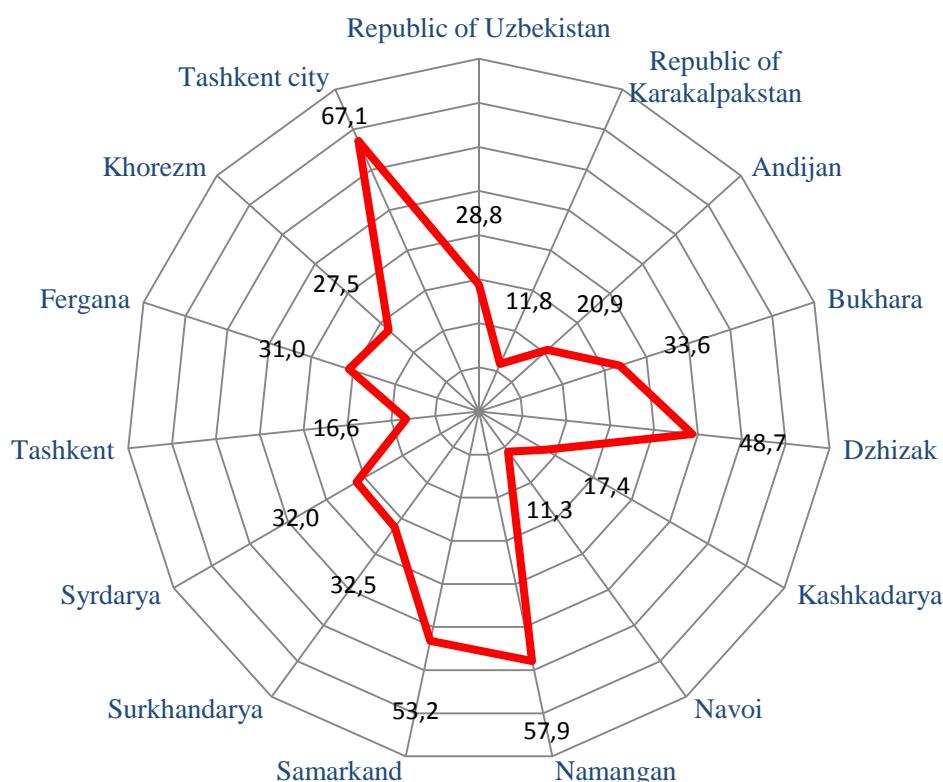

In the context of the regions, high growth rates of the average per capita production of industrial products are observed in Surkhandaryya (140,4 % to January-March 2017), Andijan (131,4 %) and Khorezm (118,3 %) regions. At the same time, low growth rates are observed in Samarkand (96,5 %), Bukhara (99,2 %) and Navoi (99,8 %) regions.

Contribution of small business to industrial production.

The dynamic development of industrial activity of small businesses provided the growth of industrial production by the corresponding period last year by 2,8 %, while the share of small businesses in the industry was 28,8 %.

In terms of regions, the largest share of small business is observed in Tashkent (67,1 % of the total industry), Namangan (57,9 %), Samarkand (53,2 %) and Dzhizak (48,7 %) regions. At the same time, the smallest share of small businesses is observed in Navoi region (11,3 %), the Republic of Karakalpakstan (11,8 %), Tashkent (16,6 %) and Kashkadarya (17,4 %) regions.

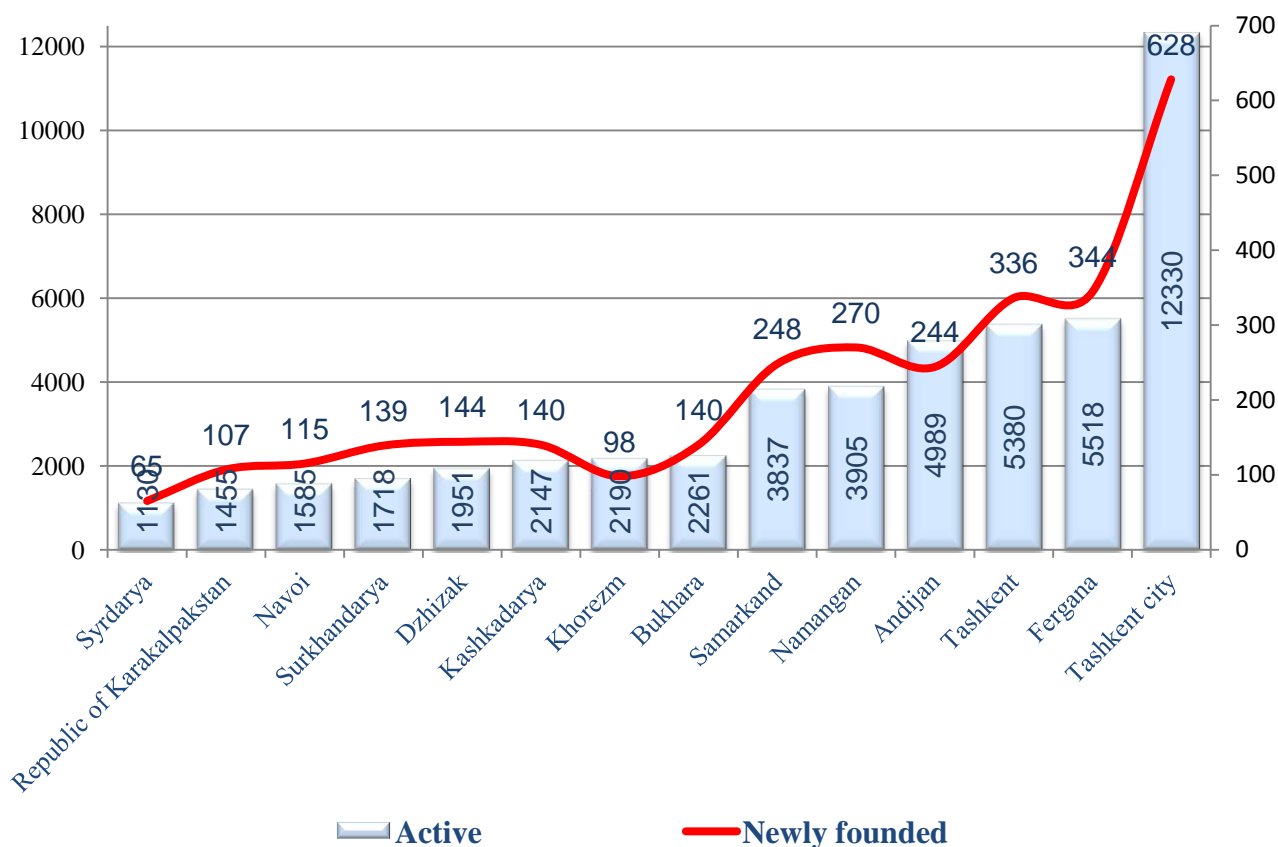

The share of small business in the total volume of industrial production by region in January-March 2018, in %

Existing and newly established industrial enterprises.

Today the country has about 51 thousand industrial enterprises, of which Tashkent has 12330 enterprises 5518 – Fergana, 5380 – Tashkent, 4989 – Andijan, 3905 – Namangan, 3837 – Samarkand, 2261 – Bukhara, 2190 – Khorezm, 2147 – Kashkadarya, 1951 – Jizzakh, 1718 – Surkhandarya, 1585 – Navoi, 1130 – Syrdarya region and 1455 enterprises in the Republic of Karakalpakstan.

Number of operating and newly established industrial enterprises as of April 1, 2018

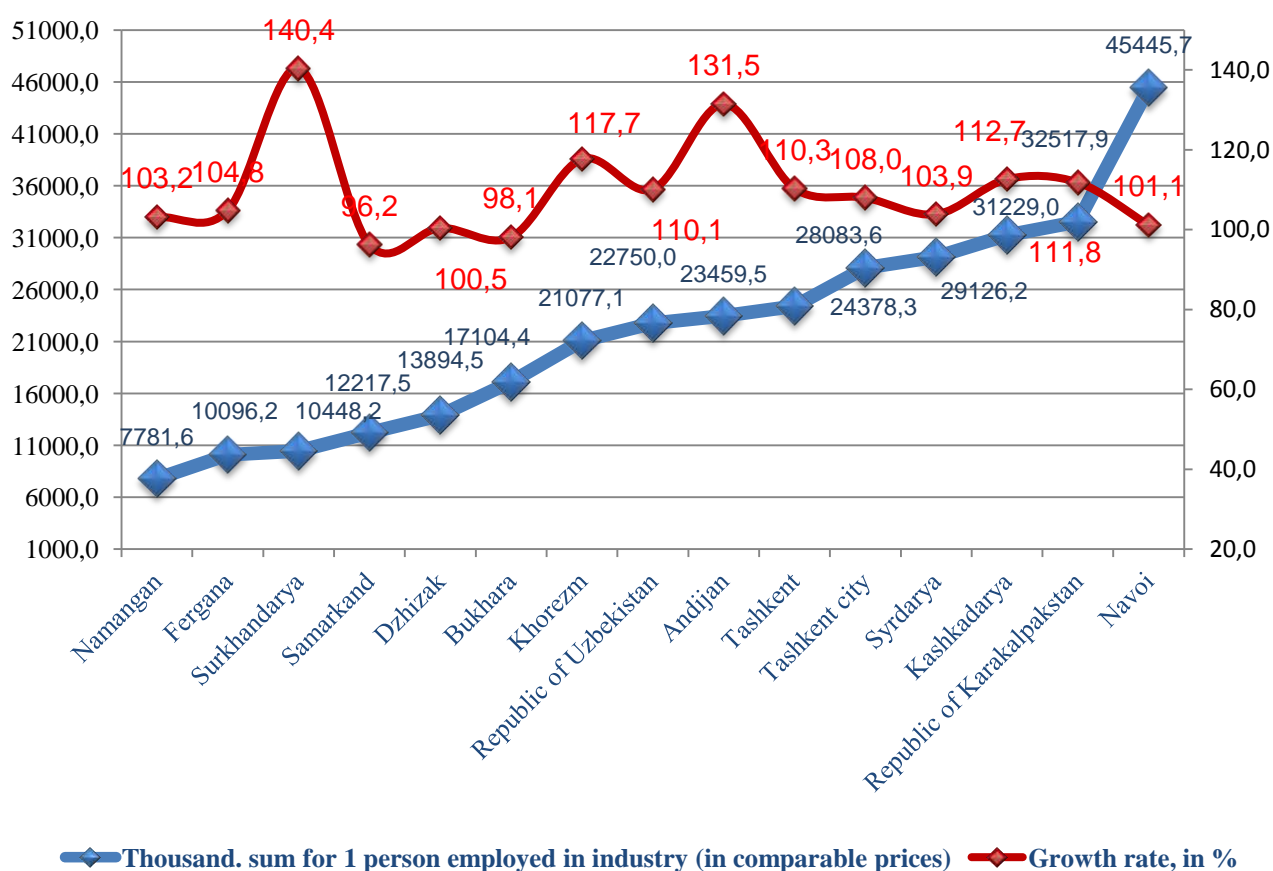

During January-March of the current year, more than 3,000 industrial enterprises were newly created in the republic, of which about 70 % are located in Tashkent city, Fergana, Tashkent, Andijan, Namangan and Samarkand regions.

Labour productivity in industry.

The implementation of measures for the modernization, technical and technological renewal of the industry provided in January-March 2018 an increase in labor productivity by 1 employed in the industry by 10,1 % compared to the previous year.

The volume and growth rate of industrial production per one person employed in industry January-March 2018
(thousand sum per 1 employed in industry)

In this case, is higher than the average level of productivity (22750,0 thousand soums) observed in Navoi region (45445,7 thousand soums), the Republic of Karakalpakstan (32517,9 thousand soums) Kashkadarya region (31229,0 thousand soums), Sydarya region (29126,2 thousand soums), Tashkent city (28083,6 thousand soums), Tashkent (24378,3 thousand soums) and Andijan (23459,5 thousand soums) regions.
